"The Farmer Kept Faith With the Country"

--Now Let the Country Keep Faith With Him"

LEONARD WOOD

This is Wood's sentiment toward the American Farmer, as expressed in his Platform and speeches.

"If the farmers had not kept faith as they did we would have lost the war, we would have been unable to feed our Allies and ourselves. They sent their sons to war, and in spite of the starvation labor they raised the biggest crop in history.

"We want to maintain our rural population because it is the basis of our most stable citizenship. To do this, we must make life on the farms more attractive. The farmer must have good roads, he pays his full share of taxes. His interests must not be permitted to suffer so that other interests may profit more. If there is anything more important in this country than Agriculture, I do not know it.

"We must have a Department of Agriculture conducted for the Farming interests by men who really know farming from the furrow to the crop.

"We must have national economy at Washington, and a budget system.

"We must have federal suppression of all dishonest business, no matter how large, no matter how small.

"We must have more producing, less spending, a saner cost of living.

"We must have a longer term of years to pay the war debt.

"We want fewer tenant farms, more owned farms."
