Suffered from Catarrh

Seneca, Wash.—"I had been a great sufferer for about ten years with catarrh of the head, or nasal catarrh. I used Dr. Pierce's medicines for about five months, the 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy, and am feeling better than I have in ten years. I used to have severe headaches, but I have never had one of these spells since I took the first bottle of Dr. Pierce's medicines. I can recommend these medicines picking by what they have done for me. I have also written Dr. Pierce's Invalids' Hotel, in Buffalo, N. Y., in regard to my case and have always received prompt replies and much valuable information in regard to my particular case."—JOHN G JOHNSON, 1217 Tower Ave.

Became Run-Down
Followed by Rheumatism

Flint, Mich.—"Several years ago I became very poorly and finally had rheumatism so that I couldn't walk for several months. I doctored with four of our local doctors with very little relief, if any. And used some two or three different patent medicines. I got no better. My friends thought I wasn't going to get well at all. I was clear discouraged when I read in the paper of someone in my same condition who had been cured by taking Dr. Pierce's Golden Medical Discovery. I didn't believe a word of it but I was giving what little money I had to the doctors anyway and thought I might as well give Dr. Pierce's a little, so I got $5.00 worth of the Golden Medical Discovery and the little 'Pleasant Pellets' and took them. By that time I was so much better that I kept on and I was so well I hardly know myself. My friends were surprised. Of course I told them all I did was to take the 'Discovery' and take good care of myself. Now this is all straight truth."—MRS. THEO. PACE, 1201 Silver Ave.

FARM STOCK

BASIS FOR PORK PRODUCTION

One Source of Famine Is That Many Follow It as Speculation Rather Than Business.

Recent heavy slumps in the hog market, as well as the high prices of corn, have agitated hog raisers in all parts of the country for more or less the remainder of the year. Nothing to regret, however. But the raising of the farm should be made a stable regular business, departing especially believe. The main point in hog raising should be to produce as much as and what our market lesser of the pigs he may sell for loss of the cost of the feed which he loses on the pigs. If a man's chief farming activity puts pork production first, he should not, however, be afraid to keep nine sows. The farmer who stakes profits on corn and depends mainly this product alone is one source of famine in the land.

Proper Feeding.

Proper feeding is the key to success in the hog business. Corn is the best single grain for fattening hogs, but it is not a well balanced ration by itself. Corn is deficient in protein, mineral matter and vitamines. Tankage, middlings, skim milk, alfalfa, clover, rape, soybeans, cowpeas, peanuts, potatoes, pumpkins, sorghum cane, sugar beets, mangels, sunflowers, artichokes, and the grains, such as wheat, oats, barley, rye, emmer, spelt, kaffir corn, milo maize, feterita, broom corn, millet, Sudan grass, Johnson grass, and the sorghums, are all valuable for hogs. Rape is especially valuable for spring pasture, and alfalfa, clover, cowpeas, soybeans and peanuts are valuable for pasture during the summer and fall. Sorghum cane, sugar beets, mangels, sunflowers, artichokes, and pumpkins are valuable for fall feeding. Potatoes are valuable for winter feeding. Tankage, middlings, skim milk, and the legumes, such as alfalfa, clover, cowpeas, soybeans and peanuts, are rich in protein, mineral matter and vitamines, and should be fed with corn and the other grains mentioned above.

Selling hay is good feed for most all classes of stock but is more palatable as a feed for cattle and sheep.

No other farm animals put on flesh as economically as pigs with a given amount of feed. Every farmer should have a few pigs.

Teach the calf to eat grain early. Calves are imitators. If an older calf knows how to eat grain it is the pet with the smaller ones these will soon learn to eat grain.

From six to eight weeks before spring work commences the horse should be put to light work and started on a light grain ration.

An excellent grain ration for little calves is three parts of oats, one part of corn and one part of oil meal. Keep the grain fresh.

CALOMEL!

It's Mercury! Quicksilver! Shocks the Liver. Danger!

You're bilious—that's a fact—your liver's all wrong. You have a headache—stomach's out of order—your head is full of cold—your mouth tastes like a buzzard roosted in it—your breath is sickening—you're constipated—you need a dose of calomel. Don't swallow it. Don't let it salivate you. Don't take it if you have sore gums, and don't accept the lie that it's the remedy needed in your case. Remember that most disorders of the stomach, liver and bowels are caused by inactivity with gentle, harmless Cascarets—they work while you sleep, never gripe, sicken, or inconvenience you. They're grand! 25c.
