

Auditor's Report for the Village of Birmingham for Year 1919

RECONCILEMENT OF BANK ACCOUNTS

Table with columns for account names and amounts. Includes entries like 'Balance per First State Savings Bank' and 'Cash in hands of treasurer to be deposited'.

Table titled 'FUND BALANCES' showing various fund categories and their corresponding amounts.

Table titled 'OVERDRAFTS' listing various fund overdrafts and their amounts.

Table titled 'RECEIPTS' for March 12, 1919, including assessment and tax rolls.

Table titled 'LESS' showing deductions from receipts, such as returned rolls and unpaid personal taxes.

Table titled 'MONEY BORROWED' listing various bank loans and their amounts.

Table titled 'LIBRARY FUND PER TAX ROLLS' showing tax roll amounts for the library fund.

Table titled 'SPECIAL ASSESSMENTS' listing various special assessments and their amounts.

Table titled 'RECEIPTS UNACCOUNTED FOR' listing unaccounted receipts.

Table titled 'MISCELLANEOUS' listing various miscellaneous items and their amounts.

Table titled 'SALES' listing various sales transactions and their amounts.

Table titled 'TOTAL RECEIPTS' showing the sum of all receipts.

Table titled 'RECEIPTS AND DISBURSEMENTS—GENERAL FUND' for March 12, 1919 to March 15, 1920.

Table titled 'DISBURSEMENTS' listing various disbursement categories.

Table titled 'SALARIES' listing salaries for various positions like President, Manager, Clerk, etc.

Table titled 'PARK DEPARTMENT LABOR' listing labor expenses for the park department.

Table titled 'PARK DEPARTMENT' listing various expenses for the park department.

Table titled 'HEALTH DEPARTMENT' listing various expenses for the health department.

Table titled 'MISCELLANEOUS' listing various miscellaneous disbursements.

Table titled 'RECEIPTS AND DISBURSEMENTS—PAVING FUND' for March 12, 1919 to March 15, 1920.

Table titled 'RECEIPTS' for the paving fund.

Table titled 'DISBURSEMENTS' for the paving fund.

Table titled 'RECEIPTS AND DISBURSEMENTS—INTEREST AND SINKING FUND' for March 12, 1919 to March 15, 1920.

Table titled 'RECEIPTS' for the interest and sinking fund.

Table titled 'DISBURSEMENTS' for the interest and sinking fund.

Table titled 'RECEIPTS AND DISBURSEMENTS—HIGHWAY FUND' for March 12, 1919 to March 15, 1920.

Table titled 'RECEIPTS' for the highway fund.

Table titled 'DISBURSEMENTS' for the highway fund.

Table titled 'RECEIPTS' for the highway fund.

Table titled 'DISBURSEMENTS' for the highway fund.

They used to call a man a "sport" when he bought an automobile

THAT was before the days when pretty nearly everybody owned one—or could, if he wanted to.

There was a lot of waste about motoring in those days. A man spent a lot of money on his car and never thought very much about what he was getting in return.

When a man buys a tire nowadays he has a pretty definite idea of what he expects to get out of it.

The dealer who sells him one that gives him less than he expects isn't likely to get any more of his business.

That's one of the reasons why we handle U. S. Tires—and recommend them to the

motorists of this community.

The U. S. reputation for quality is not built on any one tire.

There is not one standard for large U. S. Tires and another standard for small ones.

Every tire that bears the name "U. S." is built the best way its makers know how to build it. The oldest and largest rubber concern in the world cannot afford to play favorites in seeking its public.

Come in and tell us what you are looking for in tires.

We can probably tell you whether you need a U. S. Nobby, Chain, Usco, Plain, or a Royal Cord.

Select your tires according to the roads they have to travel. In many or fully sandy, where the grip is not to be heavy—U. S. Nobby.

For ordinary country roads, the U. S. Chain or Usco. For front wheels—the U. S. Plain. For best results—where U. S. Royal Cord.

LIVE STOCK

CLUB MEMBERS JUDGE STOCK

Contracts Conducted to Improve Methods Used in Production and Care of Live Stock.

It is almost as important to be able to judge an animal accurately as it is to raise one successfully. If a person does not know what constitutes good points in an animal, he is obliged to rely on someone else's judgment in both buying and selling.

Some of the Club Boys Who Are Learning to Judge Stock and Do It Skillfully.

rest the public and improve the methods used in the production and care of live stock. The club members judge both beef and dairy cattle. In putting on the demonstrations with members had his particular part to play. The emphasis of the team introduced one member, who gave the history and characteristics of an ideal beef animal, and the same for one of dairy type. Another member compared dairy and beef cattle by using an animal exhibited at the fair to illustrate his points. The captain then scored a beef stock, with a large score card that could be read by everyone in the audience. Each point was discussed and the merits of the good and poor features of the animal were pointed out and scored.

At the Interstate fair at Sioux City, Ia., the Nebraska live stock judging team won first honors in competition with teams from North Dakota, South Dakota, Missouri and Iowa.

RAISE STANDARDS OF STOCK

Activities of Live Stock Association Illustrate Benefits of Cooperation.

The manner in which co-operative judging can further the movement for better stock is illustrated by the activities of a live stock association in northern Wisconsin. It purchased 32 head of fine cattle from another part of the state and also several head from its own vicinity. The association sold these animals individually to various stock raisers. The money received by the transaction was used in further promotion of the purchased calves by purchasing 8 purchased bull calves. The calves were then distributed by lot among the members of the association. Thus the co-operative effort of the association has made possible raising the stock standards on the farms of practically the entire community having brought into the county \$160,000 worth of well-bred live stock.

KEEP PUREBRED LIVE STOCK

There is No Danger of an Oversupply and Efficiency Has Been Conclusively Proven.

There never was a time in history when pure bred livestock of all kinds received more attention than now. The efficiency of pure bred livestock has been conclusively proven. There is no danger of an oversupply.

CONSIDER SHEEP AND GOATS

Animals Worthy of More Attention Than They Receive—They Keep Down Noxious Weeds.

Sheep and goats derive more advantage than they receive on many farms. These animals are able to eat some of the coarse feeds and may keep down noxious weeds in pastures.

LIVE STOCK NOTES

The price of successful lambing is eternal vigilance.

Sows should not be bred to farrow until they are at least twelve months old.

Forage crops furnish the best possible way of cheapening the cost of pork production.

German milch cows, properly cared, is a very good food for cows but not very satisfactory for horses.

It has been proved that older sows produce more and heavier pigs than young sows and their pigs gain faster while suckling.

It is a mistake to sell all of the sows after they have produced one litter, and depend on young sows for the next crop of pigs.

Hog raisers should be well posted as to the nature and prevalence of hog typhoid and how to prevent and get rid of it, so that financial losses may be avoided.
