Jack Couldn't Build a Ladder as Fast as the Bean Stalk Grew

We often think of Jack and his bean stalk problem. Somehow, his bean plant that grew and grew and grew and his ladder that couldn't grow, bring home to us our own perplexing problems.

Like Jack's bean stalk, the costs of operating an efficient telephone system in Michigan have grown and grown and, too, just like Jack's ladder, the rates with which we must meet this growth have done little more than stand still.

Jack and your telephone company must have larger ladders.

Drink Lots of Milk
and Keep Healthy

RECENT experiments have demonstrated that the humble milch cow is the true fountain of youth. Those who consume her product in abundant quantities are the living picture of health, possess long life and are seldom ill.

Milk, butter, cheese and the yolk of eggs are the only known food stuffs that contain the wonderful substance known as "Vitamines" which builds flesh, rebuilds and restores lost tissue, digestion and other ills. Every normal man or woman should drink a pint a day. Those who are ailing should drink milk [illegible]
