Extra trousers double the life of a suit. Trousers always receive more wear than the coat and by having an extra pair you get twice the wearing service from the suit. If kept pressed and creased ready for a change extra trousers add to one's appearance. They're good suit insurance, too, should you run one pair of trousers.

There are more than 3,000,000 Ford cars in daily service throughout the world, and fully eighty per cent of these are Ford Touring Cars. There are many reasons for this, not the least of which is the simplicity in the design of the car, so easy to understand, because it is easy to operate; and mighty inexpensive compared to other motor cars. On the farm, in the city, for business and for family pleasure, it is the car of the people, and the demand is increasing every day. Let us have your order promptly if you want one.
