

## Scenes in Wall Street After Bomb Outrage

These photographs were made only a few minutes after the terrible explosion in the Wall Street region in New York, which resulted in about 35 deaths, the injury of several hundred persons and great damage to property. The authorities are convinced the blast was from a huge bomb in a one-horse truck that was standing near the sub-treasury. There is good reason to believe it was left there by an anarchist who belongs to the group that was responsible for the bomb outrage of 1910, and that this new atrocity shattered part of one of the buildings that received the brunt of the explosion, and below, the police and volunteer rescuers removing bodies of the victims. Immediately after the blast strong winds were thrown around the sub-treasury and the banks in the region.

## Women Learn How to Cast Their Ballots

At Republican state headquarters in New York City, a school for women voters is opened and the fair pupils went through all the motions of casting their ballots just as they will in the polling places.

## Aerial Acrobat Meets Death

Leon Ferguson, a daring aerial acrobat, was killed while performing on the wing of a plane less than 100 feet above the ground, at the Sonoma fair, Santa Rosa, Cal. Phil Schmidt, who accompanied him on the flight, rescued only a scratch on his head. This photograph shows the stricken plane and Phil Schmidt being lifted from wreckage.

## Jackies "Sleeping on the Green"

The Jackies are sleeping on the green, but the "green" in this case is not the lawn or meadows, but the green of a pool table—for the Navy club in New York is crowded with visiting Jackies.

## BREVITIES

The trans-Australian railway provides free of charge shower baths for through passengers.  
Turkey is the only country in Europe where there are no woman suffrage associations organized.  
In India the mother has the undisputed right to select the name for the new baby. The christening takes place when the youngster is twelve days old and is attended with many ceremonies.

For smoothing concrete roadways an Iowa man has invented a moving belt, supported under a light wooden truss from curb to curb.  
Domestic science courses have been added by the London county council to certain schools at which attendance by children is compulsory.  
At "Caycroft," Bradford, Vt., from a patch of ground seven rods less than one-fourth acre, H. P. Bartlett, the owner, has sold this season seventy bushels, twenty-three quarts of strawberries.

The Appalachian mountains are so called because they have been covered by the glaciers or foils of the rock layers which make up the crust of the earth in this region. Some of the strata of rock have been so folded that they are practically on end or upside down.  
The Stronger Sex!  
No man is so strong or so great that he is not afraid of somebody, and in nine cases out of ten that somebody is a woman.—Hamilton Herald.

## BIRMINGHAM ECCENTRIC

**BETTER HIGHWAYS**  
FEDERAL ROAD BUILDING AID  
Highway Construction Hampered by Transportation Difficulties and Lack of Material.

In addition to \$100,000,000 for forest road construction, congress has made available to July 1, 1920, the sum of \$275,000,000 for federal aid roads. Of this sum \$175,000,000 was available up to and including June 30, 1919, and this amount the states had made application covering \$102,000,000 as of April 30. This federal aid is to apply

Surface treatment of Macadam Road with Bituminous Material and Stone Chips.

On 27,000 miles of road estimated to cost \$50,000,000. As of May 1st 13,740 miles of federal aid road were under construction, involving over \$40,000,000 in federal aid. The total mileage of completed road built under the federal aid law since it became operative in 1916 is 4,901.15 miles, at an average rate of construction of over 3,000 miles a year. The difficulties of transportation, the lack of materials, the insufficient number of contracting organizations, the scarcity of adequate equipment and the general shortage of engineering personnel in connection with high way construction during the past two years have retarded road building activities to about 37.7 of the full program. The bureau of public roads, United States department of agriculture is ready, the states are ready, the funds are available to push high way construction on a 100 per cent program as soon as the national economic conditions will warrant.

## MAINTENANCE OF DIRT ROAD

Essential That No Water Be Permitted to Remain on Surface—Repair Ruts Quickly.

To maintain an earth road on that it will adequately take care of heavy traffic it is essential first that no water be allowed to stand on the road surface in the ditches, and secondly that defects occurring in the surface be repaired immediately and in a manner that will form a crust sufficient to maintain the road and resist the wear caused by traffic.  
The first can be accomplished only by grading and draining the road in a manner that will permit water to drain quickly from the surface after every rain, and the second by adding clay and sand in the proper proportions as required, shaping up the surface with a light grader, and keeping the traveled surface smooth and even with the road planer, after which the earth surface eventually forms a smooth and impervious to water. The result is an extremely satisfactory road at a very low cost to the public.

## SAVE KANSAS MANY DOLLARS

Engineering Experiment Station Tests All Materials to Be Used in Road Building.

The road materials laboratory of the Kansas engineering experiment station is in charge of the testing of all materials for use on federal aid roads in the state of Kansas. More than 75 car loads of defective cement and gravel submitted for test in the past year have been rejected, thus saving the state many thousands of dollars.

## FINANCING SYSTEM OF ROADS

Proper Procedure of County or District is Matter Open for Much Discussion.

Just how a county or district should proceed to finance a system of roads is a matter open for discussion. It depends upon how rapidly they need them and upon how well they are able to pay, in other words on their valuation and the cost of the work contemplated.

## Crown for Earth Roads.

When making roads on hillsides need very little crown. The wider and flatter the earth road, the better. If it has good drainage and is kept constantly smooth.

## To Control Weeds.

Clean grain bins carefully before putting grain into them, to control grainweeds.

## Provide Plenty of Water.

Provide plenty of water for your stock and the birds.

## Protection for Eggs.

When taking eggs to market, protect them from the sun's rays in warm weather. Ship or deliver eggs twice or three times weekly.

## Rapid Growth Desired.

Every poultry raiser wants his chicks to grow fast whether he plans to get them on an early market or to develop profitable layers.

To make smooth gravy, put a tablespoon of flour in fat in pan and add water.

## COMRADES IN THE AUTUMN MODES

IT SEEMS there is always something to be done with smocks and blouses, and now that there is a furore for embroidery on everything and a craze for ribbons, designers appear to have entered their thought on decorations for these necessary and attractive belongings. And, since nothing escapes the embroidery needle, it has occurred to modistes to bring hats, blouses, or smocks into close relationship. We find them now made of the same materials and embroidered in the same patterns.  
One of these smocks, with hat to match, is presented in the illustration given here. Either velours or satin might be used for it, or if not much of this material, the smock is the straight slip-over pattern, with belt of the material set loosely about the waist. Neck and armways are finished with buttonhole stitch in heavy silk, but the bottom of the smock is embellished with a handsome border in solid embroidery. Both the buttonhole stitch and a motif from the border appear on the hat drapery. No seamstress will find it difficult to make a smock of this simple character, and she can at least prepare the material to be draped on a hat shape, leaving it to a professional milliner to place it to the best advantage.  
The prettiest of the new ribbon-trimmed smocks and blouses are made of tulle and trimmed with plaid, striped or figured ribbons, plaids and stripes having the preference. They are suited to tailored clothes and are worn with suits or tailored skirts, the ribbon appearing on hats of duvetyne, felt, beaver or of fabrics in smart boxes and bands. This smock and hat combination is quite a new departure that may give a good account of itself by the time midwinter comes in.

## For Wear in the Afternoons

THE story of afternoon frocks is charming and it cannot be briefly told because they are so varied in character and in design. They range all the way from such unpretentious and simple affairs as those that bear each other company in the picture above, to elaborately embroidered and beaded models, handsome lace and velvet dresses and frocks. In the class of dinner frocks, but the simpler dresses are the first to be chosen and they are of the delectable kinds that fit in on many occasions.  
The dress at the left of the picture is made of velours with satin bands applied to it in a very wide crossbar pattern. The satin bands are very plain and are attached to place and appear only on the skirt, the short coat is plain and is one of the few models displaying a vase that has rounded turned back cuffs of satin in three-quarter length sleeves and a satin collar.  
The always admired black satin afternoon dress appears in the frock at the right. It has an apron drape that is long at the front but shortened to a drape across the back, contrasting by this means to acknowledge its appreciation of the bustle dress. The drapery is fastened with a boucle of Chantilly lace. In order to accommodate a becoming touch of white the boucle is set low at the front and a chokerette of white georgette, edged with lace, is fastened in across the opening. A rebellion of summer style fingers in the elbow sleeves with lace flounce, but the style tendency is toward long sleeves and high necks. Either of those dresses, while not in the vogue, are very smart and will prove a useful possession in any wardrobe, fitting in against almost any background and easily topped by the aid of smart hats. The fondness of combining two different materials in one frock is a great asset for the season's afternoon frocks, providing an easy means of making them interesting merely by ingenious combinations. But embroidery of silk or beaver is always all things the embellishment that the season most approves.

## SIX MONTHS I COULD NOT WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Bayonne, N. J.—"I had pains in back and legs so that I could not stand caused me to quit my work. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and look other remedies but got no benefit. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much. I am well and strong as now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SAKATANSKY, 23 East 17th St., Bayonne, N. J.  
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and to have a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicine must be looked upon and termed both standard and dependable by every thinking person.

"The Trouble."  
"Is your husband strong in his convictions?"  
"Oh, yes, but he's weak in his."

## CASCARETS

"They Work while you Sleep"

Do you feel all tangled up—bilious, constipated, headache, nervous, full of cold? Take Cascarets tonight for your liver and bowels to straighten you out by morning. Wake up with head clear, stomach right, breath sweet and feeling fine. No griping, no inconvenience. Children love Cascarets too. 10, 25, 50 cents.—Advt.

Approximately one-half of all the people in the world live in China and India.

Watch Children Improve Your Skin. On rising and retiring gently smear the face with Cascarets Ointment. Wash off Ointment in five minutes with Cascarets Soap and hot water. It is wonderful sometimes what Cascarets will do for poor complexion, dandruff, itching and red rough hands.—Advt.

One phrase at a political orator proves that all are not powers that spot.

## Find the Cause!

It isn't right to drag along feeling miserable—half sick. Find out what is making you feel so badly and try to correct it. Perhaps your kidneys are causing that troubling backache or those sharp, stabbing pains. You may have morning lameness, too, headache, dizzy spells and irregular kidney action. It's Jones's Kidney Pills. They have helped thousands of ailing folk. Ask your neighbor!  
A Michigan Case  
Mrs. George Symons, 815 W. Pleasant St., Iron Mountain, Mich., says: "My back aches, my eyes are sore, my head aches, my stomach is full, and I feel as if I were going to be sick. I have been so for some time. I have tried many things, but nothing has helped me. I have heard of Jones's Kidney Pills, so I bought a box and took them. I feel much better now. My back aches are gone, my eyes are clear, and I feel as if I were a new man. I have lost weight, but I feel much better. I have heard of Jones's Kidney Pills, so I bought a box and took them. I feel much better now. My back aches are gone, my eyes are clear, and I feel as if I were a new man. I have lost weight, but I feel much better. I have heard of Jones's Kidney Pills, so I bought a box and took them. I feel much better now. My back aches are gone, my eyes are clear, and I feel as if I were a new man. I have lost weight, but I feel much better."—Advt.

## 80 Years Old — Was Sick

Now Feels Young After Taking Etonic for Sour Stomach  
"I had sour stomach ever since I had the grip and it bothered me badly. I have taken Etonic only one week and am much better. I am 80 years old," says Mrs. John Hill.  
Etonic quickly relieves sour stomach, indigestion, heartburn, bloating, distress after eating, because it takes up and carries out the excess acidity and gases which cause most such ailments. If you have "fed up" everything and still suffer, do not give up hope. Etonic has brought relief to tens of thousands like you. A big box costs but a trifle with your druggist's guarantee.

## MAN'S BEST AGE

A man is as old as his organs; he can be as vigorous and healthy at 70 as at 35 if he aids his organs in performing their functions. Keep your vital organs healthy with

## GOLD MEDAL HAARLEM OIL

The world's standard remedy for kidney, liver, bladder and uric acid troubles since 1866; corrects disordered internal vital organs. All druggists, three sizes. Look for the name Gold Medal on every box.
