School Amendment

Michigan's property owners paid last year an aggregate of over One Hundred Millions for taxes.

The Budget now being prepared by Commissioner Foote shows a demand for more State Taxes than last year's total by several millions of dollars.

The dumping of the Private School Pupils of Detroit alone on to its Public Schools would cost that city Twenty-Eight Millions for new buildings and Three and a Quarter Millions a year for resistores.

The same cause would increase the School Taxes of Grand Rapids

The Direct Taxes of every district would be increased, with no increase in Primary School Fund money.

The total amount of new money to be raised by taxes for Educational Purposes in Michigan if the Private and Parochial Schools are closed by law, in addition to sums already annually expended, is estimated at Forty-Five Million Dollars for Buildings and Seven and a Quarter Millions Annually for Teachers and Going Expense.

The Educators of Michigan unanimously agree that it would take ten years to provide the school facilities which would be demanded if the Private School Pupils have to be educated at Public Expense.
