Choosing the Girls at Central

We cannot afford to be disappointed in the choice of a telephone operator. Upon her efficiency is staked our reputation and the high standard of service which we are trying to give Michigan.

Even during the post-war period when girls were so hard to obtain, we stood by our standards—selecting, carefully, girls into whose personality and character have been built those qualities of cheerfulness, even temperament and physical and mental alertness that will qualify her, after a period of careful training, to become a truly efficient operator.

How wisely we have chosen is reflected, today, in the ever increasing efficiency of the service rendered by these girls—a service which we can now state is fast approaching its pre-war efficiency.
