THE ECCENTRIC Birmingham, Michigan GEORGE R. AVERILL, Publisher \$1.50 Per Year in Advance. Entered as second-class matter in the Postoffice at Birmingham, Michigan. PRESIDENT CLIZBE'S PROMISE

The eyes of Birmingham—(not to mention neighboring territory)—are on the Commission relative to its promise to give a non-restricted supply of water throughout the coming summer. Twice within the past year, has Mr. Clizbe been elected to the Village Presidency on the strength of an increased water supply. So far he has made good.

Already, throughout the Village, preparations for this promised water supply are looked for. Most everybody has begun work on a "backyard farm." They will level water this summer to properly help Nature in bringing these gardens to fruition. The Commission knows this—they are probably bent on making good Mr. Clizbe's promise.

It has been proved that Birmingham lies in the midst of a large water strata. The three 12-inch wells are now giving to all the water we need—but this is not yet July of August. The present Commission is now taking steps to build a suitable reservoir for the storage of water. This reservoir will cost approximately \$15,000. But it will provide a permanent storage tank for all the water Birmingham may use for many years to come. It is to be hoped

that, if the matter is placed before the people of Birmingham as a bond issue, this each and everyone within the limits of the Village will heartily approve of the proposition. The most vital question in Birmingham today is the water supply—with sufficient water for summer use in Birmingham will undoubtedly take place with the foremost residence districts in the State of Michigan.

CHILDREN WEAR OUT SHOES

quickly and buying new ones for them is a continual drain on mother's allowance; so why not have us repair the shoes before they are worn out beyond repair? It is real economy to bring us the children's shoes every so often and let us put them in good shape. They will last twice as long.

HANNA'S GREEN SEAL PAINT Where One Gallon Equals Two Quality does tell! Measured by covering capacity and length of wear, one gallon of Hanna's Green Seal Paint proves itself equal to two gallons of so-called "cheap" paint. And there's a reason: The "cheap" paints can't be better than the ingredients that go into it. HANNA'S GREEN SEAL PAINT contains only highest grade ingredients, universally recognized as necessary in making good paint. If a paint is sold at a ridiculously low price it simply means that it is lacking in these necessary ingredients and contains cheap adulterants. The exact formula is printed on every package of Green Seal. Sold by THE BIRMINGHAM HARDWARE Birmingham Mich.

More Price Reductions by Harvester Company Entire Line of Implements Now at LOWER PRICES In view of the recent reduction in the price of steel, we now announce lower prices for our entire line of farm machines and implements not covered by reductions previously announced. All lower prices take effect at once. The reduction in the price of steel comes after all the material for the machines and implements we will sell this year has been provided, and will therefore have no bearing on the manufacturing costs of such machines. However, it does enable the Company to buy materials at lower prices for future manufacture, and in accordance with our announced policy we now quote those prices, the Company taking the loss on machines already finished and materials on hand. Full information regarding our lower prices on binders, mowers, and all other harvesting, haying and corn machines, tillage implements, tractors, engines, and all other I H C farm machines can be obtained from any International Dealer. INTERNATIONAL HARVESTER COMPANY CHICAGO OF AMERICA USA 92 Branch Houses and 15,000 Dealers in the United States
