The tax question was discussed at length, Monday night, by the Board of the Estate Board of Birmingham, which met at the Baldwin high school. In the course of discussion of the increase of the greater boost given some counties than others, Prof. Vliet was asked to express his opinion on the situation in the following concise manner:

The increase in Oakland county means that Bloomfield township will pay more than it does for the same property. The same proportion as Oakland county, the increase in the other counties means that more taxes for the same level of services will be levied.
