How **MICHELIN** has overcome the commonest causes of tire trouble

NUMBER 11

Driving in Trolley Tracks

For greater service try a Michelin. Driving in trolley tracks is destructive to tires because the tires are thus distorted. Michelins suffer less than ordinary makes from this abuse because

1st—the extra thickness of the Michelin tread, and of the side wall near the tread, cushions the tire and minimizes distortion.

2nd—Michelin's unique body-construction reduces the effect of such distortion and flexing, even when it does occur as a result perhaps of under-inflation.

Ford

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3½-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

Firestone

30x3½ STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3½ inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to $13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years---four plies long staple fabric---extra gum between plies---heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3½, $24.50; 32x4, $46.30; 34x4½, $54.90.
