BUT IT TASTES GOOD!

Of course, the bread you bake, dear lady, is just as delicious as ours. But occasionally you have had "luck", and your oven product is a sad affair. And that is often what puts the quave in your "paup". Now "luck" has no place in our bakery lexicon. Bread-making is an exact science with us. Each loaf is just like the other—a golden brown bunch of goodness.

Don't bother any more with making bread. Let us bake while you rest.

Miss Marjorie Field entertained a number of her friends at her home last Thursday evening at a very pretty party. Special taste was exercised in the decorations throughout the rooms and especially in the dining room where the effect was most charming. The color scheme was of rose and blue and the dining table was carried out beautifully to the center piece. A large cake bearing fancy frosted flowers was set off for the center and was surrounded by a wreath of green and rose. The room was lighted in rose and blue and before the guests receded to the lawn for games they were graciously supplied with flowers and remembrance. Interesting games followed and the young hostess made a very charming one. The guests were all from the village, being school friends of Miss Field.
