Every gallon of Hanna's Green Seal Paint contains 300 Sq. Feet, (two coats), of paint protection and beauty. In some cases it's a good deal more than 300 ft., according to the surface to be painted.

And if properly applied, Green Seal covers this surface without laps or brush marks showing. It supplies a smooth, evenly-spread film which weather canob break through. Thus Green-Seal does the double duty of beautifying and arresting decay. It gives both good wear and good looks. It's the time-tried brant.
