

While the world and vigor hold out, put some money away in the Bank

It's not "all right," but "all wrong" to go carelessly along spending all you make. The time will come when you will need the money you are throwing away in extravagance. Money is always a SURE FRIEND. When you make this sure friend, don't cast "him" aside. DON'T do it. BANK your money.

At the rear of the grounds there is a deep ravine which has been well kept for years. Many of the oldest lot-cats located on the hill overlooking this spot and the hillside is filled with handsome old trees that are years old. The grounds are filled with roadway bordered

with flower beds and some of the shrubs, including lilac and other flowering bushes, have been well kept for so many years that the place as a whole represents an ideal cemetery spot.

How MICHELIN has overcome the commonest causes of tire trouble

VIOLENT BRAKING

If brakes are violently applied, tires are called upon to check within a few yards the entire momentum of the car. Michelin stand up better than other tires under such punishment. The unique toughness of the Black Michelin tread gives these tires unequalled wear resistance. The extra traction-surface of the Michelin tread minimizes wear by distributing the wear over a greater area. And the extra thickness of the Michelin tread makes both these forms of protection doubly effective. The harder the service, the more important that you have Michelins.
