TRYING to do without good bread would be as sensible as trying to plan a perfect pienic day minus the sunshine — it can't be done. Our bread helps to make the meal a perfect one.

A. R. CRAIG 102 N. WOODWARD AVE. Birmingham, Mich.

Let the People Know

they are the boss of the public utility.

Through their chosen official representatives, the people regulate this and other public utili-ties both as to rates for service and conditions of operation, and this is the only class of business which the people may regulate, except their own individual business.

But the people themselves are coming to be heavy owners of the public utility. Between 7,999 and 8,000 people now own Consumers Poyer Company. Several hundred of these 2009 and 8,000 people now own Consumers Power Company. Several hundred of these owners live and transact business/right here in this city. They are not only owners, but they are customers of this Company. They use its, service, thousands here in this City.

Can you name anything else that you buy except the service of public utility which you can buy at your own price?

That is virtually what you do with the service of this Company, because you, through your official representatives, fix the price at which it is said to you.

Using, owning, regulating the property of this Company—is not that enough to make the people feel keeply interested in the welfare of this Company, realizing that its welfare means their welfare, and their welfare its welfare?
