Let the People Know

a stitch in time saves nine.

is an old saying and applies in the case of gas bills as in other matters

Here are a few more suggestion which, if followed, will help you to hald down on your gas bills:

Be sure to set the utensil directly over the center of the gas burner. If your gas burners adways give out a red flame, have them adjusted by the gas man, for there is something wrong.

Turn down your gas burner as soon as the water reaches the boiling point, for you cannot heat wafer beyond 212 in a utensil with a loose fitting fover. Be sure that your utensil is covered, for water will boil quicker in a covered. vessel than in one that is uncovered.

Do not buy fake gas-saving devices, as they Do not buy take gas-saving devices, as they are trouble-makers for yourself as well as tor the gas company. Many of these devices represented as saving on your gas bills only serve to prevent a good flow of gas. They/lead to endless complaint and dissatisfaction on the part of gas users.
