

Resolve

Speaking of Resolutions

A HOST of resolutions eagerly made and idly dropped are cause only for ridicule.

A few resolutions seriously made and as seriously kept can be the means of taking you far.

As a suggestion: Why not resolve to put "something," no matter how little, into the bank regularly—

And then resolve to keep that resolution!

The film fan who likes an admixture of thrills, love, sentiment and drama in his picture fare, will not be disappointed with the menu provided for him by William deMille, in his production, "After the Show," which comes to the I. O. O. F. Temple Saturday, Dec. 30. Every scene has its own thrill and from start to finish there isn't an uninteresting moment for the spectator, it is said.

"Are Waitresses Safe," a comedy said to be full of action and laughs, is presented on the bill.

Patrons who enjoy a plot that is different should see "Morals," which will be at the I. O. O. F. Temple Wednesday, Jan. 1. This is a serious version of Lovell's popular novel, "The Morals of Marcus Ordway."

HEALTH

"THIS DAY I START TOWARD HEALTH"

Make up your mind when you determine to take Chiropractic adjusting that you are surely starting on the road that will lead you to good health.

The chances for better may not be felt with the first adjustment, or the second, or the third—but nevertheless the first adjustment will mark the beginning of Nature's power to heal.

A Chiropractor is not a "miracle man" whose "laying on of hands" brings instant recovery. He is merely an ordinary human being who has made a thorough study of and has been carefully trained in the science of Chiropractic practice. He can tell you the moment he makes an analysis of your spine just where your trouble lies, and he will go straight to the point of contact and lift the barrier that has been preventing nature from keeping you well.

An analysis will cost you nothing and I will be glad to tell you just what Chiropractic adjustments will do for you.

About 130 couples were in attendance at the dance given by the Birmingham Branch of the American Association of University Women held Wednesday night at the Oakland Hills Country Club, West Maple avenue. From nine to one o'clock the varicolored groups of women and the evening clothes of men flashed in rhythmic motion about the spacious ballroom of the club, while Finzel's splendid orchestra provided the necessary musical stimulus. The University Women plan another dance in the near future. Proceeds from both dances will be devoted to charity work.

THE DAY OF Good Resolutions

A new year is ahead; a clean slate upon which we may inscribe the record of progress and accomplishment, or which may only be covered by the meaningless scrawl of Indecision and Inaction.

Let's set out from the start to make 1923 a year of real personal achievement, a red-letter year in the calendars of our lives! And in the meantime, to you and yours, we extend the old wish of good-fellowship!

HAPPY NEW YEAR!

Batteries and Furs

SAFETY and convenience prompt a woman to put her furs in storage for the Summer—if she doesn't wear them.

The same reasons impel a motorist to put his battery in storage for the Winter—if he lays up his car.

An idle battery in an idle car deteriorates rapidly—especially in cold weather. And there's always danger of freezing, too.

We'll not only "store" your battery this Winter but return it to you practically new in the Spring. You'll be astonished how little it costs you.

Winter's just around the corner. See us about your battery now.
