First State Savings Bank Birmingham, Mich.

'STRENGTH, SERVICE AND COURTESY'

Nearly 6,000 of Our Customers are our Partners In Business

Some 5,600 of the customers of the Consumers Power Company in Michigan own more than \$5,000,000 worth of the stock of this Company. Hundreds of these are our employees as well as our customers.

The number of these customer-owners has grown about 4,600 in the last year and we have every reason to believe this number will make a much greater growth in the ensuing year. This belief is based on the fact that this great family of share-holding partners has grown 4,600 in the first year of our intensive effort to make owners of our customers; that it continues to grow daily at an increasing rate, and that all of this growth has taken place at a time when industry and employment was at a rather low ebb in this state as well as in other states, and also, that we are now emerging from this period of readjustment and quietness with marked improvement just ahead.

In the meantime the people have learned that this 1 per cent. preferred stock of Consumers Power Company gives them, first, a safe investment and second, a fair, regular cash return—7.37%—on their savings.

That is the real reason why they keep on putting their money into this stock. That is why this great family of share-holding partners continues steadily to grow in all directions. Many of our 8400 customers here in Pontiac, Birmingham and Royal Oak have joined this family and others are joining it every day. And the members of this family come from almost every walk of life; men and women, the small wage earner and the salaried person for the most part, although people of larger means have also joined it.

The average shareholder has only a very few shares. That means a wide distribution of ownership and that is very gratifying because the larger the number of owners the better for everybody served by this Company. And who in this or any other city is not served by the public utility? It is the public servant of all, so it is fitting that as many as can should have a direct part in its ownership.

UNITED STATES TIRES AND TUBES SWINEHART TIRES AND TUBES AUTOMOBILE SUPPLIES

"TIME"—Lawyers have a saying that "Time is the essence of the contract." And the lawyers are right. One of the most important elements of a good tire is the amount of time and patient skill which expert workmen give to the job of making good materials into a good product. This is what makes the Swinehart factory different, and the products of Swinehart genuinely and truthfully better tires. And remember, the buyer of Swinehart, is not getting tires produced in the experimental stage; for the knowledge gained from seventeen years of tire building, combined with efficient modern machinery, makes these tires the finest that can be built. To introduce this remarkable tire to the people of Birmingham and vicinity. Starting Saturday, Jan. 28, until March 1, 1922, with each tire purchase a tube will be given absolutely free SALES AND SERVICE 126 E. MAPLE AVE. NORMAN A. BELL
