Friendly Atmosphere

You know how cold some persons can be; they chill the very atmosphere. Others warm and fill with sunshine the air about them. So it is with banks and other business concerns.

Our aim is to have a friendly atmosphere always enveloping that bank. We want all visitors and customers to be friends of the bank and of one another.

First National Bank
 Birmingham, Mich.

OBITUARY

Otis Clark Hodgdon
 The death Sunday, Feb. 26, of Otis Clark Hodgdon, 89 years of age, of Troy Township, brought back to many minds the days of his making by hand when the deceased was an expert book maker in the old Pinckney shop of Detroit.

Born in Massachusetts, Mr. Hodgdon lived there until about five years of age, later coming to Michigan and settling in Detroit where he grew to manhood. He followed the book-making trade until about 1870, when he went to Troy Township and took up farming, which he followed until the time of his death.

In 1897 Mr. Hodgdon was married to Jessie Robinson, a member of a prominent Detroit family. To her survives Mrs. Clark, Vincent, a son of Redford, and one brother, Elmer, of Detroit.

Funeral services were held from the late home on the Dodge road, Wednesday afternoon at 2 o'clock, with Rev. Cross of Highland Park officiating. Burial was in the Greenwood cemetery, Birmingham.

Margaret W. Jamison

The death of Mrs. Margaret W. Jamison, the widow of Rev. E. H. E. Jamison, occurred the afternoon of February 28, at the home of her daughter, Mrs. Bayard T. Brown, 233 North Woodward avenue. She had been ill about two years.

Mrs. Jamison was born in Springfield, Ill., in 1829. She came to Michigan in 1895 and had been a resident of Birmingham most of the time since 1905. She is survived by her son, Henry Allen, of Philadelphia, Pa., surviving, and the daughter from whose home the funeral was held Thursday afternoon, March 2, at 2 o'clock. Burial was in Woodlawn cemetery.

Fisher's Orchestra of Ann Arbor, introduced a number of the latest and most fascinating dance pieces when they furnished music for the Married People's Club dance Monday evening. The scene of the affair was the Johnston-Shaw hall and the guests later went to the Arbor Tea Room, on South Woodward avenue, where lunch was served. About 150 young married people, all members of the organization, were in attendance, and voted the evening one of the most memorable since the club was organized almost two years ago.

The committee in charge of the arrangements for the evening consisted of Mrs. Loren Stauch, Mrs. Edward Shattuck and Mrs. Harold Klein.

The people of Birmingham were informed by the Birmingham Daily this week to the effect that the price of milk distributed by that concern had been reduced one cent, to correspond to Detroit prices.

Light trucking done promptly and at a very reasonable price. Call D. C. Davenport, Phone 5821, agent.

DURAND CIGARS, very mild. adv

COMING EVENTS

This evening the local girls will meet the girls from Flint and the local boys, the boys from Ypsilanti in basketball conflicts.

Mrs. James Terry of South Woodward avenue, will entertain with an Eastern Star card party at her home tomorrow evening (Saturday). Mrs. Terry will entertain with her Eastern Star card party.

The ladies of Holy Name Parish will give a bake sale tomorrow (Saturday) in the Bell & Moore meat market.

The Choral Club will give a concert in the M. E. church the evening of March 7.

Under the auspices of the B. H. S. of Monteville Woods, the "Laughing" will be shown at the auditorium basketball evening, March 6.

The Monteville Woods, the noted scientist, will lecture at the high school tomorrow evening (Saturday) as a number on the 1921-1922 lecture course.

Mrs. Earl Potter and Mrs. F. G. Crawford will present a "Tom Thumb Wedding," March 13, at the First Presbyterian church, under the auspices of the Ladies' Society of the church. Miss Wilma Chapman will give several readings.

 HAZEL E. CLARK

Library Board
 ALICE M. HARTWELL
 (Term of 3 years)
 CLARENCE VLIET
 (Term of 3 years)

Notice—Above are the names to appear on the ballot for the special election, to be held March 13. Because there are no names to be voted upon for the offices of President and Commissioner, the names on the ballot will be changed about 10 o'clock to the entire set of ballots will show no favoritism in the position of the names thereon.

HAZEL CLARK, Village Clerk.

Little 11-year-old Winifred Quorton, daughter of Mr. and Mrs. Fred G. Quorton of West Maple avenue, claims honor among the children for seeing the first robin this year. She surprised her parents on both last Sunday and Monday mornings by showing them where a robin was perched beneath an eave of the porch. Her childish enthusiasm, accompanied by the exclamation that it was "a great big fat one," was abundant proof that she is familiar with the feathered denizens of the air.

Mrs. Katherine Kent Althouse, vice-president of the National New Thought Association, will lecture in Birmingham the evenings of March 16 and 17, in the Johnston-Shaw hall, on Woodward avenue. Her subjects for the respective evenings will be "A Plan for Man's Development," and "Fundamentals of Living." These lectures will be free to the public.

NEW CHEVROLET REFINEMENTS

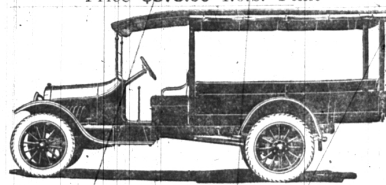

- FRONT AXLE**
- 1—Steering knuckles have been provided with large grease cups mounted on the side of the barrel. This insures positive lubrication to upper and lower bushings.
 - 2—Hard rolled bronze steering knuckle bushings reduce wear. They will not "rust up."
 - 3—Steering knuckle king bolts have been made larger—from 1/2" to 9/16" diameter. This gives larger bearing surface, insuring longer life and greater safety.
 - 4—Steering plain arms have been redesigned, having a heavier section and made with a tapered shank where they attach to the steering knuckle. This increases the safety factor.
 - 5—Tapered roller bearings are used in front wheels—reducing friction.
- CLUTCH**
- 1—Transmission supports are drilled in position on each motor and held firmly with heavy drive fit bolts and dowels securely locked. This insures positive alignment of clutch and transmission, preventing slipping or breaking of clutch cones.
 - 2—The service brake has been removed from the clutch pedal, making its only function the operation of the clutch. This removes all the strain of the braking action from the clutch and insures positive engagement.
- BRAKES**
- 1—The service brake has been connected to the former emergency brake pedal. A lever lever has been placed on the axle, which increases the leverage, giving greater braking action.
 - 2—The emergency brake has been connected to a hand lever mounted on brackets attached to the transmission case. The latch and sector are of heavy construction, insuring that the brake will remain "set" until released by hand.
- REAR AXLE**
- 1—Heavy spiral ring and pinion gears are used, eliminating breakage and insuring quiet running.
 - 2—The pinion gear is provided with a hub which fits into a heavy duty annular bearing. This giving support to the gear at a point where it is most needed.
 - 3—The length of the taper on the propeller shaft has been increased, insuring positive locking of pinion gear.
 - 4—An improved propeller shaft thrust bearing is used to carry the driving thrust.
- BODY**
- 1—The front and rear seats have been lowered, making the backs of the seats longer.
 - 2—A heavier body all is used and the door post bracing improved.
 - 3—The top has been lowered and supporting irons moved forward, permitting the use of zippy side curtains.
 - 4—The steering gear has been lowered two inches, giving easier control.
 - 5—Spring snap hood fasteners are now used on all models.
- SPRINGS**
- 1—The front and rear springs have been redesigned to give easier riding.
- ASSEMBLY**
- 1—New and improved methods of assembly have been devised, which insure positive inspection of all assembly operations.

We carry a complete line of Genuine Ford Parts. We are ready to stand back of every car we sell. Boughner Bros. are reliable dealers, they want to serve you well.
