
The World's Greatest Storehouse

of high grade coal is the Appalachian region of the United States.

The illustrated folder we are distributing this month contains interesting facts about coal production and use, for we are interested with you in all that influences the progress of our country.

This Institution assists the development of this community. It provides means for the handling of finances so necessary to the success of every enterprise.

A banking connection here furthers the progress of individuals.

Why Our Cars are Good

If we were indifferent about public opinion we might spend less time and money putting Used Cars in shape before offering them for sale. But we find that it helps our business as well as our conscience to be particular.

VILLAGE COMMISSION PROCEEDINGS

(Continued from page 1)

question of raising the amount required upon the forth and credit of the Village for the purpose of extending the water works system of the Village by adding thereto the following: Two new units consisting of two new gravel wall or other type wells, one to be located east of Woodward Avenue and the other to be located about 1,000 feet west of the present water works, to be connected with motor driven centrifugal or other type pumps with two pump houses, and connections to water mains; one 200,000 gallon elevated steel tank and water mains, together with the tank and water mains, together with large meters for master load for wells, foundations, buildings, pumping machinery, electrical connections, accessories, etc., for pump, motors, and electric power; a suction connection between the two pump houses, and fire alarm siren and siren house for same; all necessary appurtenances with plans, specifications and estimates now on file in the office of the Village Clerk, be submitted to the electors of the Village for the purpose and in the manner provided by law for the purpose, that a special election to be held at the Village Hall in said Village on Monday, the 29th day of May, A. D. 1922, between the hours of 9 o'clock A. M. and 2 o'clock P. M., Eastern Standard Time, for the purpose of voting upon the question of issuing bonds of the Village in the sum of Two Hundred Thousand Dollars ($200,000.00) for the purpose of extending the water works system of the Village by adding thereto the following: Two new units consisting of two new gravel wall or other type wells, one to be located east of Woodward Avenue and the other to be located about 1,000 feet west of the present water works, to be connected with motor driven centrifugal or other type pumps with two pump houses, and connections to water mains; one 200,000 gallon elevated steel tank and water mains, together with connections, accessories, etc., for pump, motors, and electric power connections and fire alarm siren and siren house for same.

YES

Shall the Village of Birmingham borrow the sum of Two Hundred Thousand Dollars ($200,000.00) and issue the bonds of the Village therefor for the purpose of extending the water works system of the Village by adding thereto the following: Two new gravel wall or other type wells, one to be located east of Woodward Avenue and the other to be located about 1,000 feet west of the present water works, to be connected with motor driven centrifugal or other type pumps with two pump houses, and connections to water mains; one 200,000 gallon elevated steel tank and water mains, together with connections, accessories, etc., for pump, motors, and electric power connections and fire alarm siren and siren house for same.

YES

Shall the Village of Birmingham borrow the sum of Six Thousand Dollars ($6,000.00) and issue the bonds of the Village therefor for the purpose of paying the cost and expense of the Village's proportion of the cost of the construction of a new concrete arch bridge on Woodward Avenue, said bridge to be located at the present water works, to be capped with concrete, to be 24 feet wide and 40 feet long, to be supported by two pump houses, and to be connected with the water works system of the Village of Birmingham, and for the extension of the water mains from the present water works to said bridge, and for the purchase and installation of water mains, valves, connections, and appurtenances necessary and incidental to
