#### PLANS

The successful construction of a building requires plans that indicate precisely each step to be taken in its erection.

A successful life also requires planning.

He is a good architect who plans and builds, first of all, a sound financial foundation.

And he acts wisely when he selects this Institution as aid to a successful and happy

## The Pride of Ownership

in an older home made new is ofttimes greater than in one of more recent construction

So charming-and so practical have been the appointments incorporated into the plans of the present-day home, that without them, one feels the lack of convenience and refinement of an attractive interior.

Practical make the modernizing of an old home Wallboards so easy-and the cost of such an improvement is surprisingly moderate.

Oak over the old ones seem magic in the charming interior they tend to create. No other feature lends so much to the attractiveness of a home—nor increases the property value to so great an extent. Costly? not at all. Tell us the size of your rooms and we will quote you the cost of the flooring required.

Phone if we may be of service.
