PLEASING WAYS TO USE MILK

Captain Explained Clearly Proper Use of Beverage for Building Food for Bones, Muscle and Teeth—Helps Children.

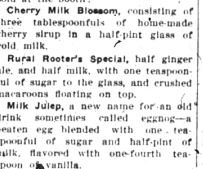

Prepared by the United States Department of Agriculture. A group of club girls from Wisconsin High School, Milwaukee county, Wisconsin, put on one of the most attractive features of the National Dairy show at St. Paul, according to reports received by the United States Department of Agriculture.

The captain of the club gave little talks on the reasons why milk should be used by everybody. She explained clearly its properties as a building food for bones, teeth and muscles; how it provides energy; and why it makes children grow and helps to keep them well.

Chocolate Malted Milk, made by stirring three tablespoons of malted milk into a little water until well mixed, and then adding two tablespoons of home-made chocolate syrup. After the mixture has been beaten in a half-pint glass by filled with cold water.

Grape Milk Punch is made by combining one quart of condensed milk with three (tablespoons) of grape juice. After diluting a half-pint glass containing this combination three-fourths full of water, it is finished with a little carbonated water, which is not strictly necessary but a great improvement.

Raspberry Cream Illustrates how milk can be used. To flavor three-fourths of a quart of milk blend with one-fourth cupful of hot water, three table-spoons of raspberry syrup are added, and one-half cupful of cold water. The glass is half-filled with carbonated water, and served with chopped nuts on top. All of these drinks are best when served cold. The colder the better it tastes. The drinks may also be served hot in cold weather. Adding a little whipped cream or a spoonful of ice cream is a pleasing variation for any of the drinks. Ordinary milk may be used in the same amounts as the liquid called for in the case of malted, powdered or condensed milk.

WAYS FOR UTILIZING SUPERFLUOUS CRUST

Left-Over Dough Can Be Made Into Cakes or Cookies.

Prepared by the United States Department of Agriculture. In the making of pies a small portion of dough, insufficient for another pie is frequently left over. This may be utilized in various ways. The following are recommended by household specialists of the United States Department of Agriculture.

Pastry Crisps. The dough may be simply rolled thin, cut into squares, sprinkled with sugar and cinnamon, and baked until crisp. These do well to serve with sauce or other dessert, and are more economical of time and money than are most cookies or cakes.

Roll Pastry. Roll about one-fourth inch in thickness, cover with dried cranberries or with blueberries, raspberries or blueberries well sweetened, sprinkle with flour, and then roll like a jelly roll. Bake in a moderately hot oven until well done. Serve with liquid sauce.

Cheese Straws. Roll pastry thin, cover with grated cheese or with a highly seasoned soft cheese; fold into thirds and roll again into a thin, long sheet; cut into narrow strips and bake in a hot oven until delicately browned. These are good to serve with salads.

METHODS OF HOME DAIRYING

Farm Women Are Reported as Having Made 3,300,000 Pounds of Butter During War.

As a result of 12,000 demonstrations to improve methods of home dairying given by extension agents, farm women are reported to the United States Department of Agriculture as having made according to demonstrated methods 3,300,000 pounds of butter during the year, 1,500,000 of which were sold and in addition they sold 750,000 gallons of cream.

Very Remarkable British Case. Church Street, Malpas, Cheshire, England. "For eleven years I suffered acute pain and sickness. I consulted several prominent doctors and each had a different opinion. At last I was put under X-Rays. I was suffering from gall stones and the operation at the Royal Infirmary, Chester, told me they were not porous and no more stones would move from them, so there remained nothing but an operation. When my wife heard this she told me to get Dodd's Kidney Pills, as they had cured her of black jaundice and gall stones. It is now sixteen years since my wife felt any symptoms of these troubles. I purchased a quantity of Dodd's Kidney Pills and took them. This is seven years ago and I have had no return of the trouble.

It was a surprise for all the doctors. They were not able to find the stones. I was under the X-Rays several times. I am enjoying the best of health and have not had another day's sickness. Dr. Frank Matthews, Welsh Row, Nantwich, has a photo of my kidneys and the stones. I was well satisfied with their treatment before I was cured by Dodd's Kidney Pills.

"I have recommended these pills to all sufferers I know. They are simply marvelous in relieving sufferers of kidney and rheumatic complaints. I also know of a case of Bright's Disease which has been cured by Dodd's Kidney Pills." Signed, GEORGE ROBERTS.

I also had neuralgia, cramps in my muscles, pressure or sharp pain on my head, and nervous dizziness. I had all these symptoms showing my kidneys were affected, so I took Dodd's Kidney Pills. They were the only means of saving my life.
