Give Your Car New Life

Many motorists are fast learning the value of having their cars thoroughly overhauled at regular intervals. Fewer repair bills, better mileage and longer service repay you a many times the price of proper overhauling. Don't wait until your car stops running before putting it in the shop. The more you run it after it commences to "get balky" the more harm you are doing it, and the more it will cost to have it put in good condition again.

We Sell and Recommend CELOTEX

INSULATING LUMBER

Because insulation is combined in all its uses. Because it is a perfect plaster-base. (All standard interior plasters form a perfect bond with it) Because it is superior as sheathing. Because it is an efficient sound deadener. Because it is lighter than lumber, is saved and handled the same as ordinary lumber and is so easily applied. Because it is available in sizes that are suitable to all purposes for which it is used. Call, phone or write for information, specifications and literature about CELOTEX. R. C.
