

FROM 94 POUNDS SHE GOES TO 132

Mrs. Gross Praises Tanlac for Overcoming Stomach Trouble - Says Results are Priceless.

"Before I took Tanlac I only weighed ninety-four pounds and scarcely had strength to sweep the floor; but now I weigh one hundred and thirty-two and am as healthy and happy as can be. This remarkable statement was made, recently, by Mrs. Mabel Gross, 1137 Aldrich St., Minneapolis, Minn.

"For nearly two years I had been in a seriously weakened condition and suffered nearly all the time from headache and backache. My nerves were beyond my control and I was terribly dizzy. I couldn't hold sleep and my stomach was so out of order that even the sight of food nauseated me.

"The benefits I have received from Tanlac are priceless. I am now a perfectly well woman and my friends speak of how healthy I look. Health is worth everything, and that is what Tanlac has meant to me."

Nothing She Took Seemed to Build Her Up After She Came From Hospital.

DETROIT LADY TELLS HOW SHE GOT WELL

"I underwent a very serious abdominal operation. After being home from the hospital, weak and forlorn, nothing seemed strong enough to build me up. I had a hard time regaining my strength. Nothing helped me until I took Hypo-Cod. It was what I needed. It gave me strength built up quickly," declared Mrs. Frances Shook, 1217 W. 12th St., Detroit.

"Hypo-Cod soon built me up strong and well. I felt like eating and my appetite came back and eating nutritious foods soon more helped me to build strength. I lost my appetite and to build strength," declared this lady.

"Hypo-Cod contains medicinal extracts from Cod Liver Oil, all the finest, fatty, oily salts eliminated, and combined with the most potent vitamins and vitamins A, B, C, D, E, K, and M. It contains the most potent vitamins and vitamins A, B, C, D, E, K, and M. It contains the most potent vitamins and vitamins A, B, C, D, E, K, and M.

"I just a simple matter. If I ask for just one thing, mother, can I be sure to get it?" quietly spoke Elsie, the four-year-old member of the household. Mother, with an air of relief, said: "Yes, mother promises that you shall have one thing you want, but you must not ask for anything else."

"UNTIL I COME TO YOU AS—" She caught at his hand. "No, no," she cried. "You must get up and go before they come! I'm going back to meet and hold them. She threw the car into the reverse; backed and turned it and brought it again onto the road. He came beside her again, putting out his hand; she seized it. Her hands for an instant clung to his, his to hers.

"You must go—quick, where you are! Shall I hear from you—shall I ever see you?" "No news will be good news," he said, "until—" "Until what?" "Until—" And again that unknown something which a thousand times it seemed to her—had checked her word and action to the girl's blind faith. Moreover, he is apparently connected with a previous murder. And, finally, he has just taken part in a midnight encounter in the girl's home in which a relative has been shot to death.

What a situation! Here are two young people, obviously in love with each other. The girl is aiding the man to escape. Yet the man is virtually a prisoner on the country estate of her father, who is trying to solve a most complicated and baffling mystery which concerns them all. For the man is suspected of a murderous attack on the girl's blind father. Moreover, he is apparently connected with a previous murder. And, finally, he has just taken part in a midnight encounter in the girl's home in which a relative has been shot to death.

CHAPTER II

A Financier Dies. Gabriel Warden—capitalist, railroad director, owner of mines and timber lands, at twenty—was one of the great men of the Northwest coast—passed with quick, uneven steps the great wicker-furnished room of his home just above Seattle on Puget sound. Twice within ten minutes he had received the telephone in the hall to receive the manager of the bank from Vancouver, for which he had inquired, had come in and that the passenger had left the station.

Warden turned suddenly and pressed the bell to call a servant. Kondo entered the room; he noticed then that Warden's hand, which was still holding the watch before him, was shaking.

"A young man who may, or may not, give a name, ask for me in a few minutes. He is in the hall, and I am going to Mr. Warden's study. He is in the hall, and I am going to Mr. Warden's study. He is in the hall, and I am going to Mr. Warden's study.

He went up the stairs. Kondo noticed, still absently holding his watch in his hand. Almost immediately after Warden entered his nervousness before controlling his wife's room. She talked with him casually for a moment or so before she turned away to meet or before she was alone, she suddenly saw that he had come to her to discuss some serious subject.

"Corby," he said, "what would you do if you were in my shoes? I want your advice on a business question." "A business question?" She was greatly surprised. "I have never known those men who believe all business matters should be kept from their wives."

"I mean it came to me through some business—businesses." "And you cannot decide it for yourself?" "And you cannot decide it for yourself?" "And you cannot decide it for yourself?"

Warden's wife for the first time felt alone. "You mean it affects me directly?" He seized both her hands in his and held her before him. "I have never known those men who believe all business matters should be kept from their wives."

She steeled at him with only one thought: she was proud of his strength, of his ability to take care of himself. She knew he would be forced to force his way against opposition. "Why, you would fight them?" "You mean you to fight them?" "Of course."

"No matter what it costs?" She realized then that what he was facing was very grave. "Of course," he said, "I didn't come to ask your advice without putting this squarely to you. If I go into this fight, I shall be not only an opponent to some of my present friends; I shall be a threat to them—something they will not like to see removed."

She cried out, "You mean someone might kill you?" "Should that keep me from going in?" She hesitated. He went on: "Would you have me afraid to do a thing that ought to be done?" "No," she said, "I would not."

"All right, then. That's all I had to know now. The young man is coming to me tonight to ask me to remove his wife's dowry. I'll tell you all I can after I've talked with him." He went directly downstairs; and as he passed through the hall, he shot a look back. Warden himself answered

PROCLAMATION OF THE "BANNS"

Law of Great Britain Has Come Down From the Earliest History of the Country. The word "bann" is derived from the early Saxon and means to "proclaim." In the very early days a simple declaration of ban, either with or without witnesses was considered valid; but this system led to many abuses that in the year 1215 a council of the king laid it down that a wedding should only be solemnized after due notice had been given in the church for three successive Sundays. This was, of course, to inform the church of the intentions of its members and to guard against abuses. In the present day the ban is often given to an impending marriage by the crying of the bans in the public market place. In the year 1215 a council of Great Britain—part from church discipline—that bans must be published for

all marriages contracted in Church of England, although the archbishop may dispense bans by special licence. It is interesting to note that the Saxon word which gives us "banns" also gives us ban, banish and banter, meaning to "proclaim" an outlaw. The licenses issued by Canadian provincial authorities are really dispensation from the publishing of the banns.—Montreal Herald.
