The Rev. D. H. Curry, formerly a pastor in Birmingham, is gradually building up his little church in Eco. Although they have purchased the site, and the building is well advanced, as yet been started, and they have been holding the meetings at the home of Mrs. Amelia Betwick, 106 Bennaville avenue. Sunday service is held at 10:30 and church services follow. Well attended prayer meetings are held every Thursday evening at 7:30. Social affairs of which there were many during the winter have ceased for a time, but everyone is anticipating the continuance of these activities during the summer months.

The Power to Produce The Power to Save

these the farmer must develop who would forge ahead in his business.

The power to produce depends upon the ability to judge good animals, plants and seeds, machines and materials, as well as good farm hands.

The power to save involves the ability to spend practically; to spend so that there will be a surplus to put in the bank.
