#### GOVERNMENT IS SIMPLE

There is really only one deep mystery of life, and that is life itself. Srom whence we came and whither we go is undoubtedly a problem that man never will solve. The chief reason that he never will find out this baffling riddle is, we think, because man did not make himself; he had no voice in his coming and all the money and intellect in the world will not prevent his dying. Thereby the had no solve in the constitute the mystery of life.

A Detroit woman found a powder fore, it is our firm conviction that better that the constitute the mystery of life. There is another thing that pre-

birth and death are the things which birth and death are the things with and the mystery of life.

There is another thing that presents something of the mysterious in its successful carrying out and that thing is maught but rains ability to govern hymself. To govern himself, the must govern hymself, and the thing is naught but rains ability to govern himself. To govern himself, he must govern himself, and the thing is naught but rains ability to govern himself, and the must govern himself, and the must constitute his land before the most seem and the make and much harder to enforce.

Put a humber of trained minds on the solution of a problem in mechanics, engineering or any sort of the other arts and crafts, and, before one, and the must be worked out that becomes a success.

It will be accepted by manking until a new invention or discovery is made that will supplant it. It is so with government—aithough the changes come about very much slower.

We read a lot about the running of the United States government in the newspapers and other periodicals, to follow.

We read a lot about the running of the United States government in the newspapers and other periodicals, to follow. The twelve-man lary that hair and the mesupapers and other periodicals, to follow. The twelve-man lary that hair and the search of the children the truth in all matters, a shining example for the children to see the land thing and the search of the children the truth in all matters are some intelligent persons take the platform in an effort where the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and the search of the children the truth in all matters and

state' to cutride the storm of public disapproval.

WOTE FOR BOND ISSUE

The Board of Education of this School District last week made known the fact that \$2.50 \text{ made}\$ in the fact that \$2.50 \text{ made}\$ in the fact that \$2.50 \text{ made}\$ in research to the fact that \$2.50 \text{ made}\$ in research to the fact that \$2.50 \text{ made}\$ in research to carry on the word of educating on children by burstless the same of the state of the same of the

to hospitals.

The only salvation that the human race has for present and future betterment lies in the extension of our educational systems—of which our public schools are the backbone.

SHORT AND MAYBE SNAPRY

By G. R. A.

Since the higgor amuggling opera-tions of hootleggers have been curb-ined at Ecorie, they have transferred same to St. Clair, according to new despatches. All they do now is to drop a hook into the river off St. Clair and snag a case of hooth. This new method of smuggling ought to increase traffic on the river this sum-mer. And it will give the poor fish a chance to grow.

pitfalls of a subject that is beyond their comprehessions.

Abraham Lincoln was beloved because he simply knew and understood his fellow creatures. Simplification and the subject that is the subject to the subject to

# TOURING CAR \$1750

#### You Can Buy More Weight-But You Won't Find a Better Car

In the Studebaker Eig-Six you get all the performance, all the comfort, and all the dependability that any car can give—at a price that smaller pro-ducers cannot even approach.

The Eig-Six Touring is a seven-pas-

senger car with a seven-passenger motor and seven-passenger dimensions throughout. It distinctly is not a sevenpassenger body mounted on a fivepassenger chassis.

passenger chassis.

The Big-Six will take the steepest hills on high. It will maintain a high rate of speed over long stretches hour after hour. No car provides more restful riding—none is easier to operate. None is free from frequent repairs.

( )

Equipment is complete, even to an ex-tra wheel with tire, tube and tire cover.

Its low price is due to large yolume and to the fact that Studebaker overhead is shared by three models; all sixes. Then, too, only one manufacturing profit is included in the Big-Six price because all vital parts are manufactured in Studebaker plants.

If you spend more than the Big-Six price you can buy more weight and bulkiness and pay more for overhead and operation, but you will not get a better automobile.

Studebaker has been building qual-
