Painting Depicts World's Progress

Water Color at Local Ford Salesroom Depicts "Periods Of Progress"

DONE BY PAUL HONORE

Conant & Osborne, local Ford dealers, probably can boast of the most expensive and artistic piece of water color work of any Birmingham business establishment—possibly including many homes.

Persons passing the sales and service station at 809 South Woodward avenue at night will see a large three-panel painting, entitled "Periods of Progress," which was executed by the well known artist, Paul Honore.

On the right hand panel is a scene of a brother-in-law of Mr. Osborne.

The picture represents three stages of the progress of man in the field of agricultural pursuits, and takes for its theme the methods used by man to plow the ground.

MOTHERS' DAY PROCLAMATION

In compliance with our beautiful custom, which in a few years has become universal, observed throughout the world, the time has come to set apart a day in honor of American mothers.

The American home is at once the cradle and the bulwark of all that is finest and best in our present day civilization, and the American mother is the heart of that bulwark.

Therefore, by virtue of the authority vested in me as Governor of the State of Michigan, I do hereby designate and proclaim Sunday, May thirteenth, 1923, as Mothers' Day.

It is the duty of every citizen to call upon his father both old and young, to gather in their homes and to take part in services appropriate to the day.
