BIRMINGHAM

Your Time and Your Health

THERE is no need of your spending so much of your time, or injuring your health, at the exhausting toil of the home. It is far easier to press a button and summon an exer-ready, nevertiring servant to do your work—do in quickly and do it cheaply.

Electricity will do your washing, your ironing, your sweeping, your sewing. It will clean and dry your dishes; it will polish your silver and do many other household tasks.

And it will lend you ample time for the finer things of life. Call and have a talk with us about the convenience and cheapness of this service.
