BALDWIN STUDENTS "SHOT" LAST FRIDAY

The ordinary routine of school life was abruptly interrupted last Friday by the photographers who came to "shoot" the classes. All books were laid away, lessons forgotten, and vanity cases much in evidence among the fair sex.

The group pictures of all classes and organizations were taken by Gainsborough's photographers for the "Baldwinian", the annual magazine edited by the senior class. The Senior Class will have their photographs taken at the studio next week.

Mrs. Hazel Clarke, Village Clerk, "When comes to a paper house conditions, Birmingham is far behind in its Municipal Building as Elton Van Winkle who he works in."

If the people of Birmingham could hear the comment of those who make their ways into our office every day they would be glad to hear that the people of Birmingham who was all dressed up with dirty shoes and no neckties. Aside from once a week, Birmingham is the Village work makes the present Village Hall entirely too crowded. I am in favor of a new Municipal Building.

Ralph Wilson, of Wilson Drive Court, "Ever since I had a dog here I have heard a great deal of talk about a Board of Commerce. I think that the formation and proper functioning of such a body in Birmingham would be a splendid thing for all of us. We are going to face big problems here in the next few years, caused by the widening of Woodward avenue and the attendant increase in our population. I certainly will lend my hearty support to such an institution."

Charles Shain, of Shain's Drug Co., "When they came to the weighing machine in our store, \$29.00 was taken out of it. Some people come in regularly to be weighed, while very often others do not even think of it until someone in a party will suggest it. Besides that, that were weighed and paid the cent there were a large number of children up to 40 pounds that were weighed free of charge."

LOCAL NIMRODS TRY THEIR AIM WITH GUN

Local nimrods have begun their work and it's not a squirrel and rabbit personally, whether he continues to live to a ripe old age by keeping out of the light, or whether he shall suddenly end his days at the end of the hunter's gun.

The hunting season for rabbits, squirrels, and partridges began Monday, October 15th, and the many local and nearby hunters sallied forth to try their luck and skill.

One of our local merchants, L. J. Slusser, who is a game warden in this vicinity, managed to shoot the full limit of the law, five fox squirrels, Monday morning before ten o'clock. Mr. Slusser remarks that contrary to the expectations of many hunters, game is very plentiful.

"Trailing African Wild Animals" by Mr. and Mrs. Martin Johnson, which will be shown at the church Saturday evening, is an extraordinary photoplay novelty.

It is a picture that educational and scientific authorities have given their wholehearted support to, and yet it is filled with exciting entertainment. When anyone catches a glimpse of a 110-pound girl chasing three huge African elephants they are bound to experience a thrill and, as this film is approved by the American Museum of Natural History and other educational societies its veracity can be vouched for.
