**WE HEARD IT SAID BY—**  
(Little Editorials picked up by the Staff in and around Birmingham.)

**Mr. Melvin Hart of Towamenc** street, just back from New York City: "While we were in New York City for the two months this summer we received the home town paper every week—and it was just like talking to an old friend. We enjoyed it so much because it kept us from losing track of the people and events we knew about in Birmingham. We liked New York boys; the weather was just fine, for the most part; but at any rate home looked pretty good to us. Just the same."

**Mrs. W. E. Barton of Ruffner** avenue, Eco City: "In my position with the telephone company in the Glendale exchange in Detroit I have a splendid opportunity to observe the rise and fall of traffic. In the thirteen years I have been with the telephone company in various exchanges, the past month has brought about the greatest changes. In former years, while this time of year the traffic slowed up a bit, there was scarcely enough change to be noticeable. However, the traffic is so slight at present that the company is able to let the operators and other employees take almost any reasonable vacations, amounting to a month or two. This is almost an unheard of thing. In my opinion would indicate that business is very light. Anyway, no matter what the cause, it is an unusual condition that has not occurred before in thirteen years that I know of."

**Fred V. Quarton of West Maple** avenue: "There is one thing about the West that I do not like at all and that is, broadly speaking, their traffic rules. It's the meanest place

on earth to get caught. For some little insignificant misdeed, even now I can't say what it was all about, they manipulated things so that when I left the court I was just \$15.00 less financially than when the officer said, 'You can repeat that to the judge.'"

**R. Correll of West Maple** Road: "It's all in knowing how to handle them. Fred. Now with me too, there was some little misunderstanding of the law arose. But when they led me into the judge why I knew that the correct proceedings. We worked around to the subject of the conditions of the crops and the relative conditions of the soil. When I quit he was ahead before his times in Michigan's agricultural conditions and it was only \$5 less. It all comes in knowing your judge."

**George H. Mitchell of Brown** street: "Thinking about the coming new school house for District No. 1, fractional, Bloomfield, Troy, Southfield and Royal Oak, I am thinking that in naming the new office, we ought to remember the old timers who many years ago did very much for the school interests in our mid and for which they received no pay and now is a chance to honor their name and place a monument forever to their memory. Among the names that ought to be so honored I can name Luther Stanley, Lyman B. Peabody, John Hodine or Alanson Johnson. These men for many years were the head ones in our school interests and had the lead for many many years in the educational work. I will also add the name of Hugh Irving to the above, and suggest that those who have the naming of this biggest and best schoolhouse in our district consider these names. One of these should be chosen is my candid opinion."
