The Electrified Home Saves Labor

In the fully wired home there are covenience outlets in every room.

¶ This means that you can attach your toaster, your percolator, your chafing dish without reaching for and unscrewing lamps from their sockets.

In the kitchen or laundry, you can attach washing machine or flatiron with the same

And in the bedrooms you have those handy outlets for curling iron, hair dryer or heating

It costs but little to have your house wiring made complete.

The Detroit Edison Co.
