## TEACH THEM CHARACTER.

A number of times we have mentioned in these columns that the educational system of the whole world is wrong, just as the whole governmental system is lacking in fundamental soundness. Of course, everything, even life itself, is something of an experiment. But, aside from the three R's in the curriculum of our public schools, what real help is any boy or girl given to combat later the stern realities of life?

For instance, instead of the teaching of numerous subjects that are more often never remembered (because they are seldom used after graduation) why not exemplify the attributes of life to our boys and girls? Instead of teaching how to make a material thing, why not catch the youthful mind in its formative period of life and teach it CHARACTER? A boy can learn the carpenter's trade after he has left school; a girl can learn to sew her own clothes after she has graduated; but neither boy nor girl can quickly learn to fashion CHARACTER after leaving school. When they do learn, it is only after years of bitter struggle, years in which the marks of IGNORANCE leave their bleeding trails on the sands of society.

We want to leave a thought with the local School Board, with Superintendent Clarence Vibe, and with every taxpayer in this district:

Can't there be instituted into the curriculum of the Birmingham schools something that will take the pliable minds of our boys and girls and teach them HONESTY, UNSELFISHNESS, RELIABILITY, INDUSTRY, LOYALTY, ACCURACY, PERSISTENCE, SINCERITY, TRUTHFULNESS, and a few of the other necessary interwoven characteristics that really lie at the foundation of a Christian world?

This is good food for thought, folks. Think deeply on it.

## HURRY UP WITH THE WATER.

Now that the Layne & Bowler Co. has decreed that another site for a well will have to be found in Birmingham, let's have a little real action!

Summer will soon be here. There is an ever-increasing demand on our water works system. Unless we have a new well, Birmingham will face one of the worst water shortages in recent years. People come out here to get the things they can't get in the larger cities. They pay taxes and are entitled to the comforts and conveniences of decent community life.

It's up to our Village Commission to request the Layne & Bowler Co. to "speed up." We would remind Mr. Garrett, their agent, that the local situation is mighty poor advertising for a certain concern that maintains general offices in Memphis, Tennessee.

## GOOD WORK, LADIES.

Going under the title of "Woman's Civic League," a number of local women are interesting themselves in matters of government. They meet every two weeks in the Community House and listen to various people make talks. They are learning something that should have been taught in the public schools—they are learning about matters of GOVERNMENT. It goes without saying that these women will cast intelligent votes at any election. May the good work go on. (Ladies, don't you think your own boys and girls ought to know something of these things before they leave school?)

## LET'S BEGIN EARLY.

Isn't WAR the worst thing that can happen to a people? If this is so, then isn't the insurance of permanent peace the biggest job that our world has to solve? If this is so, then why does an individual like Edward Bok have to offer a cash prize for the best solution? Isn't there something wrong about the whole scheme of our living when governments forget and individuals—so few of them—try to remember? You see, folks, we firmly believe that the salvation of this world lies in teaching YOUTH the art of real CHARACTER-BUILDING; no use trying to change the habits of our grownups, because every adult today has been bred to WAR. Let's begin before the "twig is indented."

## OPINIONS WILL DIFFER.

Every man and woman has a right to an individual opinion. Arthur Hartwell, Sr., of Brown street, believes that the 300,000 gallon water storage tank now used by the Village is not the best kind of tank. From what he told us one day last week we rather think he is opposed to paying for it. He would rather have had an elevated tank. So would we, Mr. Hartwell, but we've got the other kind, have used it and pronounce it an invaluable aid to Birmingham's water supply. Don't you think a thing that has been received and used should be paid for—whether it's an automobile for one person or a tank for 5,000 citizens?

Last Saturday was the last day for filing petitions nominating a local citizen for an office on the Village Commission. Since C. J. Shain and S. O. Wiley Bell will be unopposed for the offices of president and commissioner, respectively, they are now practically elected. We think that Birmingham people have made a good choice.

Police in Charleston, West Virginia, are to be rewarded for capturing criminals. "Vacations of varying lengths, according to the kind of criminal taken into custody, will be given members of the police department. Well, Detroit need never fear about losing all its force at one time if the method is adopted there.

## LIVIN' BOO LIRICS

By CHARLES S. KINNISON of Birmingham

## CHILDISH TRICKS

I've often laughed and so have you,  
At little things the children do.  
A boy with boots, for instance, prays  
For lots of mud and rainy days!  
A rainy day suddenly suits  
A boy who has new rubber boots.  
But if the skies still sunny stay,  
He'll wear the new boots anyway.

And when he gets a winter coat,  
To shield him from the blasts, I note  
However mild the day may be  
In his new coat that boy you'll see  
A little girl likewise behaves—  
To childish pranks they both are slaves.  
For older folks act just the same—  
For instance women I could name.

With fur or coats, or hats or suits,  
They're like the boy with rubber boots.  
However bright the day, and fair,  
Their new fur coat they're bound to wear.  
The sun will glow with warmth, and yet  
They'll wear that coat lighter weight  
They will not wait for days of snow—  
That new fur coat they're bound to show.

But if their winter coat is old  
They'll brave the day that's chill and cold.  
And wear that coat lighter weight  
When purchase is of recent date.  
We laugh at things the children do,  
But they might laugh at grown-ups too—  
Except at man. They do not care  
(Like fun they don't) what clothes they wear.

The extreme cold weather of recent date did not in the least freeze out the affections of Francis M. Dana, of Troy and Miss Caroline Wagner who united their fortunes (by the timely aid of Rev. L. H.
