actors" gathered on the stage, around the "Spirit of '76" and sang.

Baldwin Briefs

This town has enough fires to keep the engine going all the time, it seems. Two fires at the same time!

Tuesday, Diptheria, chicken pox and scarlet fever on the list—and the Beacon says he tested for smallpox. Why doesn't someone start the hay fever season?

Everyone rushed to the window to see how poor fellow jumped out of an airplane all wrapped up in a parachute. But what would have happened if the parachute hadn't "gloried"?

Walkerville was some snappy yesterday. The boys brought back their descriptions of the high school buildings and equipment.

John Gore, who entered Highland Park high school last week, has already made his "mark." On Tuesday he went to the pool for a plunging and impressed the coach that he was immediately signed up on the Highland Park swimming team. His debut took comes this Friday when Highland Park and Norcross have a swim meet. He is one of the twenty-two of the two hundred and fifty varsity swimmers.

An onlooker at Flint high, Friday, Feb. 22, said he would probably have grabbed his eyes and wondered if he were witnessing a football game played on a skating rink or the boys' basketball game had been advertised for the evening.

Our girls fought every inch of the way and went down to defeat still undefeated. The boys were played a clean game and were entirely unprepared for what they met.

At the end of the game the score stood 22 to 13 in favor of Flint. The scoreboard showed.....guils also in favor of Flint.

This bit of hard luck has not haunted Bigsby and his pals. They are even more determined to carry away all the rest of their games.

Financial Report—Victrola (Senior Session Room)
