Your Question AND ITS ANSWER

QUESTION—"Six months ago yesterday I was examined for life insurance, and was rejected because of High Blood Pressure and hardening of the arteries. Another examination today again rejected me. I want to know if Chiropactic will reach this trouble successfully?"

ANSWER—Many people do not know that they are suffering with high blood pressure until rejected by some life insurance company. These companies are exacting in taking risks. High blood pressure is one risk they will not take. Hardening of the arteries accompanied with high blood pressure is the result of deposits of calcareous matter within the walls of the blood vessels. The organs of elimination, liver and kidneys especially, and often the spleen, are involved. There is perhaps no condition handled more successfully under Chiropactic Spinal Adjustments. It is a rare exception to find a case that does not respond to proper adjustments to correct the cause. Consultation and analysis is always free.

Housework Made Easy

HOUSEKEEPING in these modern times need no longer use up time and strength, or shorten the life of the housewife.

Electricity performs the heavy household tasks with ease and speed. Washing, ironing, sweeping, are all done quickly and cheaply. Ample time is found for rest and recreation. Housework becomes a short and pleasant exercise, rather than laborious and energy-destroying work.

If you lack any of these efficient electrical servants, come in and let us explain how easily and cheaply you can procure their services.
