FOR THE KIDDIES' HEALTH READ THIS PASTEURIZED MILK VS. RAW MILK

PASTEURIZATION is hereby defined as a process by which milk is heated to a temperature of 142° to 145° Fahrenheit and held at this temperature for a period of not less than thirty minutes, then suddenly cooled to a temperature of 50° or lower and shall be held at or below 50° until delivered to the consumer.

Raw milk is hereby defined as milk that has not been heated in any way to destroy the Coccidia, such as Typhoid Fever, Scarlet Fever, Diphtheria, Dysentery and other germs that exist in milk by the thousands.

Milk that has been properly pasteurized destroys these germs—and makes a healthy, nutritious food for the children as well as the grown-ups.

Watch this space next week for something further on pasteurization.

P.S.—MILK CONSUMERS ARE CORDIALLY INVITED TO INSPECT THE PLANT AT ANY TIME.

The Week's new Records

Harold Bauer Makes His First Victor Record—Galli-Curci and De Luca Sing

It is a pleasing choice which Harold Bauer has made for his Victor Record—his first. Bauer is a modestly and one of the most hauntingly melodious of Schubert's compositions, "Kawemot Grotto," is the first composer's imaginative echo of island bells in the Neva. The record is a superb demonstration of the "semi-staccato" touch—but a thing of beauty.

Not strictly a chamber number, nevertheless Galli-Curci's record of the "Namber Song" (St. Teresa's "Dance") has some startling bits of melody, shared by a high and a low voice. Sir Henry, Bosley Bishop's lovely voice, singing "Pretty Madrigal Bird" is its companion, a well timed pair of songs, of course, but they are not.

We never need a second invitation to hear a baritone sing. He readily such as one as "I'm Laid." Our faith is rewarded this week with two fine Italian songs, sung with consummate beauty and perfect perfection of style. "Canta di Bella" (Song of the Sea) has a wistful, lyrical, with soft vocal coloration. "Ora di Festa" (Days of Feast) is dreamy and infinitely tender.

Dance Records This Week

What a pleasure it is to include on a record a song which has been so long in the past. At the same time, it is a pleasure to see a record which is so well organized in its arrangement and so well sung.

The "Dance of the King" and "The Dance of the Queen" are two of the best records of the week. They are both well sung and well arranged. The "Dance of the King" is a beautiful piece of music, and the "Dance of the Queen" is a beautiful piece of music.

The Editorial Spotlight

Telephone Courtesy—Middleton (N. Y.) Times-Press

Two of the commonest utilities in business are the telephone and the telegraph, and yet in the daily use of both of these devices, in fact, in the use of both of these devices, there are many opportunities to effect improvements. Every business manager should have each of his employees understand that when the number they have called is obtained, their personality is then put upon the wire. They are not face to face, but voice to voice, which is more important, for the telephone usually reflects our moods through accents and inflections of the voice no less truly than said, but rather how it is said, that counts. Courtesy is the refining oil that lubricates daily affairs, and the more of it we give away, the more we have on hand.

It is a worshipful service. A helpful service. The music is unusually good. The pastor will speak very briefly on "Christ's Touch." A cordial welcome for everybody.
