Shop around, then come in and see our stock and prices. There is an excellent assortment of furniture for each room in the home, as well as rugs, refrigerators and PORCH pieces. Our moderate prices are due to lower operating costs, such as a single organization for the two businesses; lessened expense for floor space, handling, electricity and other items.

How Do You Heat Your 15 Gallons?

Gas Water Heaters

as low as \$26 installed

THE average American family uses 15 gallons of hot water daily for all purposes. This has just been computed by a research laboratory. If you had to heat that much water all at once, of course, you couldn't begin to lift the bucket to the stove. Yet, you lift and strain and tire yourself just as much heating your 15 gallons a little at a time, in buckets, teakettles and wash boilers.

Why "get along without one" any longer when our terms are so low and we install your heater quickly and skillfully? Gas Water Heaters of all types. Come in and see them.
