The Smaller the Cottage the Larger the Love

So goes the old saying. And it is more easily accomplished today than in olden times, because the small modern cottage of today can have all the conveniences and comforts of an elaborate mansion and still be constructed at a moderate cost.

The above design is one of the coziest little cottages our Architectural Bureau has ever produced. Small though it is, there is no waste space and a surprising amount of room is enclosed in its four walls, with modern facilities to enjoy every inch of it.

Drop into our office and get your copy of our **New Book of Home Plans** which will give the floor arrangement and more complete details of the construction of this and many other attractive homes. There are also many valuable suggestions for anyone who is planning to build a new home.
