Now Packard Presents - New ease of routine care. Greater motoring comforts. EVERY five years or so it has Packard's privilege to make some revolutionary advance for others to follow. Now, having exhausted present possibilities in power and smoothness, Packard presents improvements of an entirely new nature: 1 - New ease of routine care. The thousands who have taken delivery of new Packard Six and Eight cars during the past few weeks have found the Motor Oil Rectifier and the Chassis Lubricator a combination that cannot be had in any other motor car in all the world. They have found that motor oil life has been multiplied by five; that they need to change oil but four or five times a year. They have found that they may lubricate the chassis in less than one second of time, the pull of a plunger forcing oil to the 45 points requiring regular attention. 2 - Greater motoring comforts. These new Packard owners have also found greater motoring comforts. The notably new ease of steering and wider and even more luxurious enclosed bodies. For example, the enclosed models of the Packard Eight have the widest steering wheel bodies offered on any motor car. They have found that the utmost in beauty, distinction and comfort is now combined. They have found that they can double the mileage life of their Packard cars. And Packard has found that now, more than ever, Packard should say -
