**Odd Monkey Specimen**  
One of the most interesting specimens in the world zoo was the monkey that didn't have a tail in Australia. He was the most human-like of all odd-world monkeys on exhibition. He did not have even the outline of a prodigious tail and his cry was a single wail, singularly like the cry of a child. He was all black except for a white frontal band over his eyes.

### THE HORTON

3 cup suction method of washing is simply the time-proven, gentle process of washing by hand, made better and faster mechanically.

A complete gas heater keeps water hot during entire washing.

It is the most thorough cleansing process ever developed in an electric washer — and is easiest on the clothes.
