Community Sunday School. Mr. Walter E. Edgar, superintendent, meets in Royal Oak District School No. 2, Cook's and Starr Road. Bible school 2:30. Classes for all. Everyone welcome.

Walsh, James & Wasey Prepare New Map Of Birmingham Area

The new 1925 edition of Walsh, James & Wasey Company's yearly map of Birmingham and the Birmingham-Bloomfield-Southfield-Troy District is now ready for free distribution. The Birmingham map has been prepared in a very attractive form and includes all streets and schools of Birmingham as well as photographs of the High School, Adams school, various homes and streets.

The other map shows the entire "Hills District" giving the location of various golf and country clubs, all roads and lakes, and indicating the names of property owners. This map is also accompanied by pictures taken throughout the district.

The location of Walsh, James & Wasey company's former, now and proposed developments are indicated—twenty-seven in all.

These maps, drawn and copyrighted by the McAlpine Map Company of Birmingham, are the only ones that are reprinted and brought completely up-to-date each year. They have been in great demand in the past and last year's edition was soon exhausted. Not only is this year's map much more attractive, but an additional quantity has been printed. It carries a great deal of information and copies will be mailed free on request so long as the supply holds out.

EASTERN STARS TO HOLD ST. PATRICK'S DANCE ON MARCH 18

Wednesday, March 18, has been marked off on the local social calendar in honor of the St. Patrick's Dance being given by the entertainment committee of the Order of Eastern Stars, here in the Masonic Temple. The Michigan Club Orchestra, from Pontiac, which has been engaged for the dance, will be accompanied in a maze of green and white crepe paper in a tiny alcove adjoining the dance floor. To carry out the St. Patrick's idea the decoration committee has not been highly dependent on the green and white bunting, but are fashioning huge shamrocks to be suspended from the walls and ceiling.

During the dancing, caps and noise makers will be given as favors, while refreshments will be served from a booth in one corner by a committee headed by Mrs. Robert McClellan.

Yesterday afternoon local Eastern Stars gave a most successful luncheon at Laft Hall. After the luncheon tables had been cleared, guests enjoyed 500 bridge, and cross word puzzles. The sole decorative suggestion at the luncheon was in the gay conventional floral designs painted on the bridge tables.

K. OF P. LODGE WILL HOLD DANCING PARTY

Cary Symons and Howard Wendorph, as entertainment and decorations committee, are planning a Knights of Pythias Dancing Party for next Friday, March 13, at the Hall in the Bell Block. (The affair is to be a typical St. Patrick's inspiration with its yards and yards of green and white bunting, waxy green shamrock, and Irish jay pipes. Pierce's Society Dance Orchestra of Detroit, will furnish the music.)

Already Mr. Symons and Mr. Wendorph have been responsible for two previous social functions in the organization. One was the Sixty-first anniversary party, the other a dancing party.

Tonight local Pythian Sisters are sponsoring an old fashioned dance at the Hall. Mrs. Joseph Edgar is in charge of arrangements.

Most Powerful Explosive

Hydrogen and air, the most powerful explosion in the ratio of five volumes of air and one of hydrogen. Such a mixture of hydrogen and air would expand upwards of 1,000 times.

Loses His Title on Races

An English aristocrat recently promised to give big week's winnings on horse racing to the church's fighting fund, but reneged on it because he had lost on every race.

Quality at Low Cost

As Utterly Different In Results Now As a Year Ago

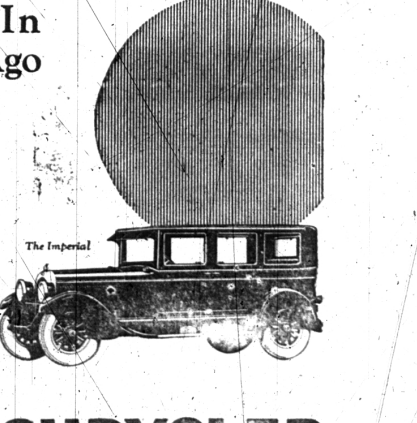

To the best of our knowledge there had never been a 3-inch motor capable of producing 68 horsepower, a speed of 70 miles an hour, with gasoline economy safely over 20 miles to the gallon, until the Chrysler Six arrived on the market last year. There is no other today.

That is what scientific engineering in the way of perfected gas distribution, special combustion chambers, and heat distribution does for the Chrysler Six. There has never before been a motor in which all sense of vibration has been so completely eliminated, never before a car in which side-sway and road-weaving are absent, never before a car with an overall length of 160 inches that afforded so much usable space—generously roomy for five large adults.

Examples might be cited by the score. But you can see for yourself how utterly different the Chrysler Six is, and why the eager public bought more than 32,000 Chrysler cars the first year, if you drive the car but a few minutes. We are anxious to give you a Chrysler ride, to prove it the best-built car you ever sat in.

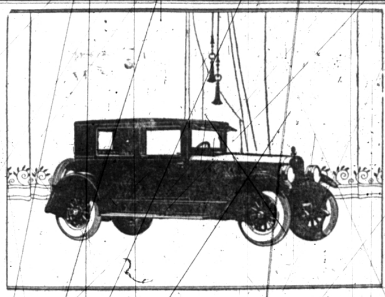

- The Touring Car - \$1395
- The Roadster - \$1495
- The Coupe - \$1695
- The Sedan - \$1895
- The Chrysler Six - \$2195

All prices f. o. b. Detroit, subject to current government tax.

"The World's Greatest Buy"

Everyone Says It—Sales Prove It

Hudson is not called "the World's Greatest Buy" for today alone. That is acknowledgment of ten years' constant refinement of a great car around the famous patented Super-Six principle. The largest production of 6-cylinder closed cars in the world give it unequalled value advantages.

All now know that higher price can buy no smoother performance than Hudson's. It cannot buy more brilliant results in pick-up, power or speed. It cannot buy greater reliability or endurance. At today's prices need you own a lesser car? Can a costlier car satisfy you more?
