**The Best Is Not Too Good**

SOMETIMES a storekeeper believes that because his stock is not the largest—his fixtures not the newest—his store not in the best location—his building not imposing—he doesn't need the most improved lighting.

Experience proves the contrary. More than other storekeepers who are better circumstanced, he needs the best lighting to offset disadvantages that he cannot easily control.

No other improvement that he can think of has such power to increase trade as this single item of lighting. Lighting attracts. Lighting makes sales. lighting pays profits.

**We will inspect your lighting equipment and suggest improvements, without charge.**

## PHOTOSTAT NOW IS IN OPERATION

Willis M. Brewer, chairman of the board of county auditors, told the supervisors yesterday that the new Photostat machine purchased for the register of deeds is in operation in the basement of the First National Bank building. He said that through an arrangement with the three local abstract companies, they are paying the rent of the rooms for the privilege of getting copies of the deeds and mortgages that go through. Papers to the number of 2,455 have been photographed since the machine was installed. The machine averages 200 papers a day, although the output can be extended to 600.

The chairman of the board of auditors asked the board members what they thought of a plan for finishing off one or more rooms in the attic of the county building to provide additional offices because of the congested quarters. He declared that more room was being demanded by the circuit courts and with present quarters it is impossible to provide separate rooms for men and women jurors. The proposition was left with the building committee with power to act.

### A FISHERMAN'S PHILOSOPHY

"Life is a strange thing but this 'passing on' is stranger. We come into the world like the fish and the birds. We live our life, and one day a call comes, and we say, 'goodby,' some one says, 'Good Luck,' and it's all over. It's just like goin' fishin'. You start out in the morning, say 'goodby,' you're goin' to the river, but you don't know where you're goin' to fish, you've got your tackle and bait and your hope, that's all. I've found out though that a fisherman has got a better chance, if his tackle is right, and I always look mine over the night before the start. There's a lot of things to get out of order, and you have to look careful or somethin's goin' to go wrong. I've always been mighty careful and it's paid in in the long run, if it did take time. I've kept my spoon and hooks dry and sharp and reel well oiled, and when I went out, I felt safe and sure. Now, when my time comes, and I hear the call from up the river, I'm just goin' out, my friend, as though I was goin' fishin'. I've lived clean and been square, and there's nothin' to be ashamed of and whether anyone says, 'Good Luck,' or not, I sort of feel that I'm goin' to find a nice quiet eddy down somewhere on the other side and everything's goin' to be all right."

### DRUNK DRIVERS

**Under the revised motor vehicle law of Michigan, any person driving while under the influence of liquor or drugs MUST, when convicted the first time, lose his driving license for a period not less than three months. He MUST be fined not less than $50 or more than $100, or be imprisoned for not more than 90 days, or receive both fine and prison term.**

**For a second offense, upon conviction, the driver MUST be deprived of his license for not less than a year and MUST be punished by a fine not exceeding $500 or be imprisoned not to exceed one year, or receive both fine and prison term.**

**Headlights**

**Under the amended motor vehicle law, the driver who fails to display TWO white headlights on the front of his car and a red light on the rear of the car while driving at night MUST be charged with reckless driving. Upon conviction his license may be revoked for one year.**

## SHORTAGE OF LABOR HALTS STREET WORK

Work on the new street to be placed between Garden avenue and Prairie avenue is being held up temporarily due to inability on the part of the Judson Bradway Co., to get the necessary labor to carry on the work. The residents of both Garden and Prairie avenues have signed over the Right-of-way and twenty-five feet will be taken from the rear end of each pair of adjoining lots and a fifty foot gravelled street run through from Thirteen Mile Road to Judson avenue. As each lot fronting on this new street is eighty feet in width and two hundred and fifty feet deep, this will give the property owners an eight foot frontage on two streets and makes possible the subdividing of each half acre lot into four city sized lots. These, if so desired, can be sold individually and at a profit to the owners. This is as planned when Prairie Lawn subdivision was laid out in half-acre tracts and will probably be carried out in other sections of the subdivision when deemed advisable by the residents and property owners. This work is under the supervision of Mr. Moore who already has the water pipes laid and who promises speedy action on the new street whenever he is given the plat with which to do the work.

## LADIES' AID SOCIETY SEEKS NEW MEMBERS

The Ladies' Aid Society met at the home of Mrs. Allen Wednesday last and elected the following officers: Mrs. Cutten, president; Mrs. Deverson, vice president, and Mrs. Woodward, secretary-treasurer. Starting with only a small membership, the society has grown until it now totals twenty members, all active and with the best interests of the community at heart. During the past year the Ladies' Aid has done much relief work in the community and, inasmuch as its activities are confined only by the extent of its membership, every woman in the district should make it a point to get in touch with this organization and become a member immediately. Any of the above officers or any member of the society will gladly accept applications and explain in detail, work already done and the things planned for the future.

## MR. AND MRS. KELLAR NOW RESIDING HERE

In order to introduce the newcomers of the community to the older residents, this column will publish the names and addresses of each new family as it moves into this district. This may prove to be quite a task inasmuch as the spring building boom is in progress and many families are moving each week into the North Woodward section. We will first introduce Mr. and Mrs. Kellar, who, with their three children, have just recently moved into their home at the northeast corner of Judson and Garden avenue.

Mr. Kellar started building his home late last fall and continued the work throughout the entire winter and early spring whenever weather permitted. The result is a well built home and a happy and contented wife and family. While he has only been in the community a few weeks, Mr. Kellar has already demonstrated that he will prove to be one of whom all others in the community will be proud. It will be well worth your while to drop in and get acquainted with Mr. and Mrs. Kellar. That is a duty to the new comers of Oakfield Village that the residents in general have overlooked.

## OAKFIELD'S CHECKER CHAMPION CHALLENGES

Oakfield Village has a checker champion who is willing and ready to defend his title against all comers. Any one in this neck of woods who feels that they know something about the game should make it a point to get in touch with this gentleman and endeavor to show that the title of "champion" has been sadly misplaced. By the way, this alleged "champion" is none other than Mr. H. A. Coleman of Garden and Judson avenue. Does he hear any challenges?

### Building New Garage.

Mr. Kelly of Garden avenue, has started work on a two-car garage which will be made of hollow tile. He is being helped in this work by his brother-in-law who is experienced in construction work of this kind. A new car can be expected in the neighborhood upon completion of this garage as only a fine car would be worthy of such an excellent garage as Mr. Kelly has planned.

### Mrs. Hagen Improving.

Mrs. Hagen of the Woodward Grove subdivision has been very ill during the past few months and her friends will be glad to learn that she is greatly improved and will be up and around in a short time.

Miss Estelle Hess and Miss Dorothy Smith, both of Prairie Lawn Acres, were guests of friends in Detroit over the week-end.

### *Must Keep Barrel Clean*

The National Rifle association says that after the residue of smokeless powder in a gun barrel has been allowed to remain and the barrel has become rusted, nothing can be done to remedy the condition. Rifles and pistols should be cleaned immediately after firing. It is best to swab the barrel with warm water and dry carefully, then apply a heavy grease to prevent rust.

### *Spontaneous*

Not even the most careful matchmaker can guarantee that they will not have a flare-up.
