Turn On the Current

Do you believe in electricity? Do you believe in its power to make the street car run? If you do, I care in a few moments to talk to you of the power of Vital Force, or human electricity, in the body.

If you don't believe in this human electrical current of nervous energy, then how do you account for the fact that the paralytic cannot raise the paralyzed arm? Why is he paralyzed? What, lacking, except the human electrical current or mental impulse? The proof of this lies in the fact that these patients come to us and, without the use of any instruments, massage or vibrator, but with the hands alone, we adjust the vertebrae of the spine, removing the pressure from the nerves, thus releasing this current so that it can flow freely to the paralyzed arm and the patient gets well. This is equally true of every organ in your body.

Health follows Chiropractic Vertebral Adjustments. All I ask is a chance to prove my claim that the adjustments will restore health in most cases where other methods have afforded no relief. Office Hours: 10 to 12; 2 to 5. Tues., Thurs. and Sat. Evenings, 7 to 9
