

SAVE

For Their Education

The best investment in Birmingham is offered to the members of the Birmingham Building & Loan Association, which is paying to its members 6 per cent interest, compounded semi-annually. That is more than any bank will pay for money on deposit.

The parents of local and nearby children pride themselves upon giving their children a good education; education in the Birmingham schools is not so expensive as that obtained in a college or university. By investing a small part of their savings in the Birmingham Building & Loan Association now, local parents will have adequate means at their disposal to send their children, at a later date, to an institution of higher learning.

Certainly you are interested in getting the greatest returns on your savings—and you want, of course, to invest them in the safest financial institution. The funds of the Birmingham Building & Loan Association are all invested in first mortgages on BIRMINGHAM PROPERTY—isn't that the best security on earth?

Conservative in every respect—economy practiced to the last degree—Careful Appraisal of all loans—safety, security and vigilance, our watchword.
