"There is nothing provincial about the Birmingham police force even if the town does seem a little like a burr. Turn On the Current

Do you believe in electricity? Do you believe in its power to make the street car run? If you do, I can in a few moments talk convince you of the power of Vital Force, or human electricity, in the body.

Man does not run the street car. He simply turns on the current. Man cannot run his physical being, but he can turn on the human electrical current—that's what the Chiropractor does.

If you don't believe in this human electrical current of nervous energy, then how do you account for the fact that the paralytic cannot raise the paralyzed arm? Why is he paralyzed? What is lacking, except the human electrical current or mental impulse. The proof of this lies in the fact that these patients come to us, without the use of drugs or instruments, massage or therapy, but with the hand alone, we adjust the vertebrae of the spine, removing the pressure from the nerves, thus releasing this current so that it can flow freely to the paralyzed arm and the patient gets well. This is equally true of every organ in your body.

Health follows Chiropractic Vertebral Adjustments. All I ask is a chance to prove my claim that the adjustments will restore health in most cases where other methods have afforded no relief.
