The World Becomes Enlightened in Proportion to Its Willingness

Chiropractic demonstrates that there is a cause for all disease and invariably it is found in the spine. By scientific adjustments the Chiropractor corrects the spinal defects and NATURE effects the cure

Chiropractor corrects the spinal detects and NATORA-enecut incur. Much like those individuals who handle firearms, and when it is too late, confess that they "didn't know jit was loaded," many people undertake to buy better health, only to find that the purchase demands not only a great deal of care, but a knowledge of things they know nothing about. Under such conditions some of them get" panicley," others develop "nerves," and not a few bounce of later, "panicley," others develop "nerves," and not a few bounce of later, "panicley," others develop "nerves," and not a few bounce of later, "panicley," and learn that it is the efficient dingless way to health.

Very few of us go through life without needing the Chiropractor's service, and, when such service is needed, it is satisfying to know where it can be had?

You Can Do More Business

Some storekeepers, strangely enough, have a way of looking upon their lighting merely as expense, mecessary expense of course, but still expense.

They quite fail to realize that store lighting is also an investment, as truly an investment as the goods on the shelves and as capable of paying a profit.

Lighting—good lighting—attracts customers; it stimulates buying; it increases sales; it gives a great advantage over the poorly lighted competitor.

This is not a theory; it is a condition. It has been demonstrated time and again. We will send an illumination engineer to advise you, without charge.
