Vacation Over, Societies Plan Busy Fall

September has brought the life giving back into the calendar that has been a negative factor during the summer and along with the opening of school last Tuesday morning other activities are reviving. After a vacation week longer than usual Birmingham children returned to school and the resumption of the great number of activities that go hand in hand with school life, setting the start and pace for other village activities.

Anticipating a return to active meetings and winter activity the Boy and Arch Majors opened their fall sessions last Monday evening. A special program for the winter had been prepared and was discussed and a definite outline of approaching work accepted. Charles Kamin, High Priest in the order says he expects a large class of candidates and will be in charge of the making of the order plan to carry on an intensive program during the coming year.

Increasing their meetings from one a month, as has been the custom of the Birmingham Branch of the American Association of University women when the fall program of meetings started September 16. Officers are expected to assemble within the next week to plan a place of meeting and conclude the outline of the winter's work.

Following the trend of club women the Woman's Civic League will assemble its members within the course of a few weeks and in the meantime expect to call a meeting of the board of directors of the league during the coming week to prepare an attractive program for the opening meeting that is expected to occur about the first week in October. With the increased number of women in the village, the Civic League expects to have a membership this season appreciably and extend the useful work among the women in the village that has accomplished since its beginning little more than a year ago.

Practical orders and return to classrooms was quite naturally followed by a stir among the officers in the Parent-Teacher association. Activity in this group of similar societies is generally started by the first meeting of the Parent-Teacher Council. Some little delay has been caused in this group because of the delay of a week in opening schools and the first meeting of the council is expected to be announced for the month of October. The meetings of the various units of the P.T.A. therefore will follow along on the customary meeting schedule of October, each unit having an appointed day in the month for such meetings.

Practical orders, after quiet sessions, are notifying members of their intention to begin active work on the last Monday this month the P.T.A. will hold its initiatory night and as their business meetings have been entirely cancelled for July and August, the membership expected to respond enthusiastically to the announcement of the meeting.

Knights of Pythias have not been informed of the fall opening of their work but it is expected that it will start September 5 with the regular third rank work and will conclude with the one meeting each week through the month of October. DeMolay boys held a well attended meeting last Tuesday evening and opening day for their winter work which they expect to exceed their program of last year organization and establishing themselves in former seasons.

Members are determined upon their this however has been arranged and will consist of an art lesson and one of the last clubs to come into mail, and was arranged by Mrs. F. will be the Woman's Literary S. Ross, Mrs. Louis Hascall and Mrs. club with the first meeting scheduled for October 6. The program for George Senger.
