#### Could You Get Your Money On Short Notice

YOUR INVESTMENTS may be safe and may Y bring you an income at various times during the year, but if you needed some money on short notice, it would be almost impossible to liquidate your investments in time to meet the emergency.

That is why it is important to have money on a savings account at all times. You can get it the very day, yes, the very hour that you want it.

On a savings account your money is not only ready for you, but it is earning more in the form of interest.

No matter where else you may have money invested, part of it should be in this strong bank on a savings account.

# Buick shares its price with many motor cars -but its Value with none

Because of the great number of Buicks bought each year, and because every dollar of the savings of great volume goes back into Buick value, Buick's moderate price buys quality.

Buick can, and does build its cars the way all motor car engineers would like to build theirs, if their volume or selling price permitted.

Buick is selling more cars today than ever before in Buick history.\* The gublic wants iner transportation at lower cost. And in Buick they get it.
