## H. W. Harding Lumber Co.

We want to make this plain. Your own refrigerator—the one you are now using—can be Kelvinator-equipped, and you can enjoy all the advantages of the world's standard electric refrigeration at low cost.

It only takes a few hours to make the change. We call at your home and determine the model required. We install it quickly and cleanly, without a lot of muss and fuss. Then you have the same dependable electric refrigeration that was serving others before any other existing system was even on the market;

since 1914 to be exact. If you desire, you can make use of our Household Budget Plan in paying for it. That makes it very easy to own.

And don't forget this; Kelvinator, the oldest system of electric refrigeration for the home, and the system of longest proved life, actually costs less than most others. With the first low cost, and the household Budget Purchase Plan to use if you wish, there's no reason why you should be satisfied with anything but Kelvinator-World's Standard.

Leonard Electric

We will be glad to show, explain and demonstrate Kelvinator
