## WE HEARD IT SAID BY—

(Little Editorials picked up by the Staff in and around Birmingham.)

Clark J. Green, officer on the local police force: "I wish to thank Robert R. Allen and Fred Parks for the help they gave me Wednesday morning in clearing the traffic congestion on Woodward avenue during the fire at John Finn's house."

John Salmer, supervisor of West Bloomfield township: "I am in favor of passing a resolution to require all petitions for annexation to have a blue print of the property to be annexed attached to the petition. It would give one a definite picture of the property in question, something that can not be attained with a mere worded description."

Clarence Vliet: "The 'Big Parade' is a fine picture. It is the most realistic and impressive thing of its kind that I have ever seen and, in my estimation, can't be compared with 'The Birth of a Nation.'"

W. N. Whittemore, writing from Fairhope, Ala., to the Eccentric: "Sorry you cannot see the flowers blooming but to make you feel better I have been very busy here and most everyone has a cold, so Michigan is not so bad."

## Buick Urges People To Conserve On Tires

The Buick Motor Company is, in its advertising, urging Buick owners all over the country to help combat the present high price of rubber by conserving tires as much as possible. The company advocates careful driving and frequent inspection and repair of minor injuries as aids in obtaining maximum mileage from a set of tires.

The engineering department has compiled a set of rules to be followed in order to get full service from tires. They are:

Avoid sudden stops. Don't let the tire slide along the pavement. Avoid sharp turns. Take corners slowly. Don't bruise a tire by running into a curb or other obstruction. Don't scrape the tires by running too close to a curb. Keep out of car tracks and deep ruts.

Repair cuts and worn spots promptly.

Harry H. Bassett, President of the Buick Motor Company, said recently that there is grave danger of the American automobile owner losing the benefit of the automobile tax reduction authorized by Congress through the increased cost of equipping the cars with tires.

"We are threatened with high rubber prices as long as the present situation lasts," said Mr. Bassett. "The National Automobile Chamber of Commerce will attempt to produce low priced rubber by organizing a ten million dollar corporation to be devoted to this purpose. The individual autoist can and should do his share by saving his tires as much as possible. The present price of rubber can't last if we conserve our present supply and thus partially reduce the demand."
