Standing Before Our Embassies

TEN prominent diplomats have recently chosen Packard cars to stand before our embassies in the great capitals of the world.

For Packard cars afford that distinction so necessary to the maintenance of American prestige in the business and social activities of our ambassadors.

In England, a Packard Six has appeared at the court of Saint James'; while in France, an Eight has stood, an object of beauty, at the gates of the Palais de l'Elysée.

In either Six or Eight is found the full measure of Packard beauty, Packard distinction and Packard dependability.

Both truly typify American world leadership in motor car manufacture.

Packard Eight and Packard Six both may be had in nine beautiful body types, four open and five enclosed.
